Realms Of Impossibility:

Realms of Impossibility ,2002 *Power Prophecy* Naim Collins,2022-08-16 Are you in need of a miracle Do you want to operate in the miraculous to see others healed delivered and transformed If so then this is the book for you There are key elements of the prophetic that create a supernatural environment in which miracles become normal But many believers do not realize the vital connection between these gifts The Rational Ontological Argument Joshua R. Sijuwade,2025-01-23 By developing a new ontological argument for the existence of God Joshua R Sijuwade presents an innovative approach that enriches the existing discourse with fresh insights and a contemporary perspective The ontological argument seeks to demonstrate the existence of God from an a priori standpoint and Sijuwade begins by addressing the substantial critique the modal argument has received He embarks on a rigorous exploration providing needed analysis and a positive iteration termed the Rational Ontological Argument rooted in a novel modal methodology known as Rational Modal Realism Using this new method Sijuwade focuses on demonstrating how the central concepts and theories within modal metaphysics and epistemology such as modal realism modal rationalism trope theory and ontological pluralism offer a means to develop a victorious ontological argument Employing contemporary analytic methods and suggesting productive directions for further research Sijuwade makes a key contribution to philosophy of religion and re invigorates the age old philosophical argument for the existence of God **Realms of Impossibility: Ground** C. J. Lim,2002 The Split God Nimi Wariboko,2018-02-20 Offers a critical Pentecostal philosophy of God that challenges orthodox Christianity Although Pentecostalism is generally considered a conservative movement in The Split God Nimi Wariboko shows that its operative everyday notion of God is a radical one that poses under cover of loyalty a challenge to orthodox Christianity He argues that the image of God that arises out of the everyday practices of Pentecostalism is a split God a deity harboring a radical split that not only destabilizes and prevents God himself from achieving ontological completeness but also conditions and shapes the practices and identities of Pentecostal believers Drawing from the work of Slavoj i ek Jacques Lacan Jean Luc Nancy and Giorgio Agamben among others Wariboko presents a close reading of everyday Pentecostal practices and in doing so uncovers and presents a sophisticated conversation between radical continental philosophy and everyday forms of spirituality By de particularizing Pentecostal studies and Pentecostalism Wariboko broadens our understanding of the intellectual aspects of the global Pentecostal and Charismatic movements Not since the early work of Thomas J J Altizer has a theologian philosopher opened such a radical new vision of reality with new language as Nimi Wariboko does in The Split God Through an analysis of Pentecostalism Wariboko creates a vivid shocking theology that self consciously repeats classical Christian orthodoxy in some of its modes while transforming it so as to make new sense of Pentecostal beliefs and practices He mines the language of contemporary continental critical theory of the psychoanalytical and Marxist sort for resources to express his claim that God is split not whole reality both spiritual and material is split not whole society is split not whole and persons are split not

whole What Pentecostalism does he claims is to unite these split parts into vital ways of living in the face of God without making them holistically coherent just alive and vital Robert Cummings Neville author of *Defining Religion Essays in Philosophy of Religion* *Mississippi Valley Medical Monthly* ,1905 *The Lost Track of Time* Paige Britt,2015-03-31 A magical fantasy an allegorical cautionary tale a feast of language a celebration of creativity this dazzling debut novel is poised to become a story for the ages Penelope is running out of time She dreams of being a writer but how can she pursue her passion when her mother schedules every minute of her life And how will she ever prove that writing is worthwhile if her mother keeps telling her to get busy and be more productive Then one day Penelope discovers a hole in her schedule an entire day completely unplanned and she mysteriously falls into it What follows is a mesmerizing journey through the Realm of Possibility where Penelope sets out to find and free the Great Moodler the one person who may have the answers she seeks Along the way she must face an army of Clockworkers battle the evil Chronos take a daring Flight of Fancy and save herself from the grip of time Brimming with clever language and masterful wordplay *The Lost Track of Time* is a high stakes adventure that will take you to a place where nothing is impossible and every minute doesn't count people do [Handbook of Islamic Philosophy of Science](#) Masudul Alam Choudhury,2024-03-28 This handbook provides a comprehensive overview of Islamic ethical issues within a wide spectrum of philosophy of science topics examining the development of the model of moral inclusiveness in economics science and society from ontological epistemological and analytical perspectives This paradigm takes the view that ethics is systemically endogenous and can be studied by the most rigorous scientific analysis pertaining to diverse issues and problems of ethicality in socio scientific inquiry This handbook takes a sweeping transdisciplinary approach that is deeply phenomenological to the nature and logic of scientific inquiry of and in the Qur'an Such an approach invokes the episteme of the unity of knowledge in the socio scientific systemic sense The volumes respective sections focus on the nature logic and role that ethics plays in formulating new vistas of alternative epistemic futures in Islamic economics finance and the social sciences The ideas presented are situated within the broader context of the post modernist post pandemic and the post Covid 19 epoch while being aimed at conceptualising a distinctive new outlook of transdisciplinary intellection in Islamic philosophy The content is rigorously conceptual qualitative quantitative and applied Covering a diversity of subject areas from philosophy of science to economics and in socio scientific context within the realm of Islamic philosophy this forms a key text for scholars in these respective arenas led by pioneering scholarship in Islamic studies **Cj Lim** C.
