Realpolitik Theory And Practice:

Realpolitik, Theory and Practice Ira S. Cohen, 1975 *The Killing Trap* Manus I. Midlarsky, 2005-10-20 The Killing Trap offers a comparative analysis of the genocides, politicides and ethnic cleansings of the twentieth century which are estimated to have cost upwards of forty million lives. The book seeks to understand both the occurrence and magnitude of genocide based on the conviction that such comparative analysis may contribute towards prevention of genocide in the future. Manus Midlarsky compares socio-economic circumstances and international contexts and includes in his analysis the Jews of Europe, Armenians in the Ottoman Empire, Tutsi in Rwanda, black Africans in Darfur, Cambodians, Bosnians and the victims of conflict in Ireland. The occurrence of genocide is explained by means of a framework that gives equal emphasis to the non-occurrence of genocide, a critical element not found in other comparisons, and victims are given a prominence equal to that of perpetrators in understanding the magnitude of genocide.

Harmony and War Yuan-kang Wang, 2010-12-15 Confucianism has shaped a certain perception of Chinese security strategy symbolized by the defensive nonaggressive Great Wall. Many believe China is antimilitary and reluctant to use force against its enemies. It practices pacifism and refrains from expanding its boundaries even when nationally strong. In a path-breaking study traversing six centuries of Chinese history, Yuan-kang Wang resoundingly discredits this notion, recasting China as a practitioner of realpolitik and a ruthless purveyor of expansive grand strategies. Leaders of the Song Dynasty 960-1279 and Ming Dynasty 1368-1644 prized military force and shrewdly assessed the capabilities of China's adversaries. They adopted defensive strategies when their country was weak and pursued expansive goals such as territorial acquisition, enemy destruction and total military victory when their country was strong. Despite the dominance of an antimilitarist Confucian culture, warfare was not uncommon in the bulk of Chinese history. Grounding his research in primary Chinese sources, Wang outlines a politics of power that are crucial to understanding China's strategies today, especially its policy of peaceful development which he argues the nation has adopted mainly because of its military, economic and technological weakness in relation to the United States. *Routledge Library Editions: International Relations* Various, 2021-08-05 The 10 volumes in this set, originally published between 1959 and 1986, analyze the process of radical foreign policy change, explore Marxist-Leninist models of international relations, describe the significance of cultural relations in international affairs, highlight the changing nature of political communities and changing patterns of government, and examine the interaction between the realms of ethics and international relations.

Social States Alastair I. Johnston, 2008 Socialization in international relations theory: Mimicking, Social Influence, Persuasion, Conclusions. [Conflict Resolution Quarterly, Volume 21, Number 4, Summer 2004](#) Tricia S. Jones, 2004-08-09 Conflict Resolution Quarterly, an official publication of the Association for Conflict Resolution (ACR), publishes quality scholarship on relationships between theory, research and practice in the conflict management and dispute resolution field to promote more effective professional applications.
