Reborn In The Light Life After Near Death Experiences:

Reborn in the Light Cherie Sutherland,1995 Through interviews with 400 near death survivors this fascinating book examines the dramatic common experiences of those who have journeyed to the edge of the after life and explores the ways in which their lives and beliefs have forever been altered Previous publisher Transworld Australia **The Science of**

Near-Death Experiences John C. Hagan,2017-01-30 What happens to consciousness during the act of dying The most compelling answers come from people who almost die and later recall events that occurred while lifesaving resuscitation emergency care or surgery was performed These events are now called near death experiences NDEs As medical and surgical skills improve innovative procedures can bring back patients who have traveled farther on the path to death than at any other time in history Physicians and healthcare professionals must learn how to appropriately treat patients who report an NDE It is estimated that more than 10 million people in the United States have experienced an NDE Hagan and the contributors to this volume engage in evidence based research on near death experiences and include physicians who themselves have undergone a near death experience This book establishes a new paradigm for NDEs **The Handbook of**

Near-Death Experiences Bruce Greyson,Janice Miner Holden,Debbie James,2009-06-22 A team of international experts presents the history recent developments and controversies in the intriguing study of near death experience Experts from around the world share the history and current state of near death experience NDE knowledge They explore controversies in the field offer stories from their research and express their hopes for the future of investigation into this fascinating phenomenon As modern medical techniques for resuscitation advance NDEs are more frequently reported These include more than the popular notions of moving through a tunnel or seeing a light They also include people once revived knowing things their knowledge of which can t currently be explained As The Handbook of Near Death Experiences Thirty Years of Investigation makes clear great controversy exists in the medical and psychological fields concerning NDEs Are they caused by physiological changes in the brain or are they biological reactions to oxygen loss or impending death Are they a product of changing states of consciousness Or are they caused by something else altogether All of these ideas and more are discussed in this unique and comprehensive volume **Wisdom of Near-Death Experiences** Dr. Penny Sartori,2014-03-25 Drawing

on a 5 year clinical study of near death experiences a doctor presents riveting patient stories to explore how NDEs can empower us and society as a whole By trying to pathologize NDEs are we missing out on what they can tell us about life Dr Penny Sartori is a registered nurse who began researching Near Death Experiences NDEs in 1995 after one of her long term intensive care patients begged her to let him die in peace Inspired by this encounter she went on to research NDEs in a PhD program where she learned profound spiritual lessons and made startling discoveries that she now shares in The Wisdom of Near Death Experiences During her academic work Dr Sartori studied three samples of ICU patients during a five year period Here she recounts the eye opening stories of those patients who experienced NDEs and out of body experiences OBEs

In one group as many as 18% of patients experienced an NDE though Patient 10 stood out among the others After being unresponsive he awoke to report he had experienced an OBE He was able to describe what happened in the hospital room while he was unconscious and claimed he met not only his deceased father but a Jesus like figure Most shocking of all he had regained the use of his hand which had been paralyzed since birth When talking about the biggest takeaways from her research Dr Sartori shares how her findings have made her question the common belief that the brain gives rise to consciousness Most importantly she has gained a deeper appreciation for death an experience she now views with less fear and anxiety In addition to detailing dozens of case studies *The Wisdom of Near Death Experiences* also discusses childhood NDEs the differences in NDEs among different cultures and the after effects of NDEs

Religion, Spirituality and the Near-Death Experience Mark Fox, 2003-12-16 *Through the Valley of the Shadow of Death* is a dramatic and sustained response to decades of research into near death experiences NDEs the first to credibly bridge the gap between the competing factions of science and spirituality

A Spiritual Hypothesis Daniel Punzak, 2017-04-06 Traditional Western religion explains that each human has a spiritual aspect called a soul However several passages in the Bible allude to humans having a soul and a spirit Dan has explored this idea and found numerous modern psychological findings that support this notion Shamanism and some Eastern religious concepts also support this idea Diverse concepts such as creativity and mental illness can be explained by the idea that two spiritual forms are in each human

Near-Death Experiences Ornella Corazza, 2008-06-30 Near death experiences fascinate everyone from theologians to sociologists and neuroscientists This groundbreaking book introduces the phenomenon of NDEs their personal impact and the dominant scientific explanations Taking a strikingly original cross cultural approach and incorporating new medical research it combines new theories of mind and body with contemporary research into how the brain functions Ornella Corazza analyses dualist models of mind and body discussing the main features of NDEs as reported by many people who have experienced them She studies the use of ketamine to reveal how characteristics of NDEs can be chemically induced without being close to death This evidence challenges the conventional survivalist hypothesis according to which the near death experience is a proof of the existence of an afterlife This remarkable book concludes that we need to move towards a more integrated view of embodiment in order to understand what human life is and also what it can be Ornella Corazza is a NDE researcher at the School of Oriental and African Studies SOAS University of London In 2004 5 she was a Member of the 21st Century Centre of Excellence COE Program on the Construction of Death and Life Studies at the University of Tokyo

The Rise and Fall of the Afterlife Jan N. Bremmer, 2003-09-02 Belief in the afterlife is still very much alive in Western civilisation even though the truth of its existence is no longer universally accepted Surprisingly however heaven hell and the immortal soul were all ideas which arrived relatively late in the ancient world Originally Greece and Israel the cultures that gave us Christianity had only the vaguest ideas of an afterlife So where did these concepts come from and why did they develop In this fascinating learned but

highly readable book Jan N Bremmer one of the foremost authorities on ancient religion takes a fresh look at the major developments in the Western imagination of the afterlife from the ancient Greeks to the modern near death experience

Lessons from the Light Kenneth Ring, Evelyn Elsaesser, 2006-09-01 While providing many accounts of near death experiences NDEs from men women and children of all ages and backgrounds *Lessons from the Light* is much more than just an inspiring collection of NDEs In *Lessons* near death expert Kenneth Ring extracts the pure gold of the NDE and with a beautiful balance of sound research and human insight reveals the practical wisdom held within these experiences As Stanley Krippner states In this remarkable book Ring presents evidence that merely learning about the near death experience has similar positive effects to those reported by people who actually have had near death experiences Kenneth Ring is one of the few authors whose gifts include the capacity to transform their readers lives

The Gifts of Near-Death Experiences

Dennis Linn, Sheila Fabricant Linn, Matthew Linn, 2016-05-01 Prepare to immerse yourself in accounts of real near death experiences and discover the wisdom they have to offer you Near death experiences NDEs are common well documented and similar across cultures throughout the world Current estimates are that between four and fifteen percent of the world s population have had an NDE Some of the fascination with NDEs comes from the fact that they often result in great leaps in personal growth These leaps are characterized by the loss of the fear of death the healing of deep hurts an increase in self esteem and compassion for others a sense of union with all things and a clearer sense of how to fulfill one s purpose in life This is a book that teaches readers how to reap the benefits of NDEs without having to experience trauma In the course of their many workshops around the world the authors have discovered that when one immerses oneself in accounts of NDEs one can experience love hope healing and a sense of purpose This is the only book that systematically encourages the reader to create a spiritual and psychological healing practice based on NDEs Each chapter includes an account of a fascinating NDE followed by a series of questions meditations exercises and video links The reader is encouraged to contemplate these stories and their own lives It is truly a profound guide to both living and dying Praise for *The Gifts of Near Death Experiences* A fresh and exciting perspective to understanding near death experiences Everyone can benefit from learning the wisdom so clearly and eloquently expressed in this book With each turn of the page you will find a treasure trove of insights inspiration and practical pointers that will really work in your life This outstanding book is expertly written remarkably easy to read and enthusiastically recommended Jeffrey Long M D author of the New York Times bestselling *Evidence of the Afterlife The Science of Near Death Experiences* The Linns have written a book that is both inspirational and practical They provide wise and gentle wisdom that lead readers into a place of growth and healing Richard Rohr O F M author of *Falling Upward*

Near Death Experiences Anthony Peake, 2024-11-01 As the bestselling author of *Is There Life After Death* and *Cheating the Ferryman* Anthony Peake has studied the phenomena surrounding what happens when we die In *Near Death Experiences* he takes a look at a phenomenon that has garnered great attention from both academics and scientists who study the

workings of the brain and the physiological events that are associated with this seemingly inexplicable state By marrying up anecdotal evidence with empirical scientific evidence Peake proffers the latest theories behind what we call near death experiences and how those investigating them are trying to reconcile an apparent state of awareness on the part of the person concerned with the fact that clinically they are considered by physicians to be in a state of clinical death with no signs of bodily functions It makes for a fascinating read that takes us into an area of neuroscientific research that is continually evolving

The Facts on Near Death Experiences John Ankerberg, John Weldon, 2011-04-09 Testimonies about near death experiences What does the Bible say Can these experiences be deceptive and consequential What heaven and hell are like

[The New Children and Near-Death Experiences](#) P. M. H. Atwater, 2003-11-06 Presents an in depth look at children who have experienced the near death phenomenon and the heightened abilities that these children exhibit Provides compelling evidence for the existence of a generation of children who represent the spiritual evolution of the human race Includes firsthand testimonies of children who have returned from near death The New Children and Near Death Experiences is the first book to provide from the view of the child an in depth study of children who have experienced the near death phenomenon and its aftereffects Atwater notes that the child who returns from a near death experience is not the same child as before but is a remodeled rewired reconfigured refined version of the original Presenting data to support her contention that these children have experienced structural chemical and functional changes in the brain she also shows how their greater empathic abilities as well as dramatically higher intelligence are qualities that are also present in children born since 1982 enhanced abilities that cannot be tied to simple genetics Atwater shows that understanding the near death experiences of children can help us prepare for a quantum leap in the evolution of humanity

Healing with Death Imagery Anees Ahmad Sheikh, Katharina Sheikh, 2018-10-26

Sages of various traditions and ages have reiterated that we must incorporate the inevitability of death into the fabric of life to experience life's breadth and beauty Imagery is an important tool in dealing with death and this book is devoted to exploring many facets of this fascinating issue It begins with an overview of ancient and modern approaches to the use of death imagery for therapeutic purposes including a discussion of its possible benefits Chapter 2 specifically exploring Stephen Levine's contributions in this area shows that only by opening up to the reality of death can one make living a conscious process of growth A number of excellent imagery based experiential exercises are discussed in detail Chapter 3 demonstrates the significance of confronting death through mental and artistic images it discusses six examples of death related religious and existential works of art Recently there has been an upsurge of interest in near death experiences and their salutary effects on attitudes beliefs and values Of particular interest here are increases in spirituality concern for others an appreciation of life and an enhanced sense of meaning and purpose in life Chapter 4 presents a detailed critical overview of this field of investigation with special emphasis on the transformatory after effects of near death experiences Of all the major religions in the world Buddhism is at the forefront of exploring the topic of death and dying and developing specific meditative exercises for confronting death Chapter 5 presents an in depth treatment of death imagery in Buddhist thought Exploring the use of hypnosis for death rehearsal Chapter 6 continues the theme that confrontation with death can lead to healthful consequences A variation of this technique hypnotic suicidal rehearsal is also discussed it seems to be effective for use with clients who are contemplating suicide Case examples clarify the details of the process Over the years several clinicians have proposed the use of imagery for reconstructing death related events and thereby facilitating the grieving process for individuals who are experiencing symptoms rooted in unfinished grieving Chapter 7 gives an exhaustive account of the use of imagery for unresolved grieving including a number of case histories Researchers have perhaps devoted more time and energy to the investigation of death anxiety than any other death related topic Chapter 8 reviews the literature on death anxiety and death imagery and demonstrates a core connection between the two phenomena The authors claim that death imagery has the potential not only to ameliorate death anxiety but also to lead to a more authentic existence In Chapter 9 the authors explain how death imagery can be used constructively in death education they present several practical suggestions and specific guided imagery exercises The volume closes with a presentation of a detailed death imagery experiential exercise aimed at encountering death to enhance our appreciation of life The reader will notice this thread running steadily throughout the book This comprehensive book devoted to the role of death imagery in health and growth perhaps the first of its kind will be helpful in changing the rather sinister view of death prevalent in our culture to a

deeper appreciation for its enhancing potential **Lições da luz** Kenneth Ring, Evelyn Elsaesser Valarino, 2001 A experiência de proximidade com a morte considerada uma revelação de profunda beleza e densidade capaz de transformar a vida da pessoa O dr Ring um dos pioneiros e mais conceituados nomes nas pesquisas sobre o assunto Ao contrário da maioria dos livros sobre o tema este dirigido a pessoa que não o passaram pela experiência Com informações reveladas em longos anos de pesquisa e trabalho clínico os autores organizam os ensinamentos de modo que a qualquer pessoa possa desfrutá-los utilizando-os em sua vida cotidiana e num processo de crescimento espiritual *BEYOND THE LAST BREATH: The Soul's Path Through Death and Rebirth* Dr. Pradeep Kumar Thakur, *Beyond the Last Breath* is a deeply moving and spiritually enriching exploration of what happens to the soul after death offering comfort clarity and profound insight into life's greatest mystery Rooted in the timeless wisdom of the Gita the Upanishads and diverse global spiritual traditions the book gently guides readers through the stages of the soul's journey beyond death shedding light on the transition through unseen realms and the process of rebirth With compassion and lucidity it addresses the questions many fear to ask about the afterlife the nature of the soul and the meaning of existence while encouraging a life of purpose inner peace and spiritual preparation For the grieving the seeking and the contemplative *Beyond the Last Breath* offers not an end but a hopeful beginning a vision of death as a sacred passage to a higher continuing journey *Everyday Spirituality* S. MacKian, 2012-02-07 This book puts spirit back at the heart of spirituality By exploring the everyday impacts of alternative spiritual beliefs and practices the book examines contemporary spirituality and how critical social science can map and understand it **Mystical Moments and Unitive Thinking** Dan Merkur, 1999-02-11 Merkur proposes an alternative to the traditional psychoanalytic explanation of mystical experiences as regression to the solipsism of earliest infancy He does this by viewing unitive thinking as a line of cognitive development and mystical moments as creative inspirations on unitive topics Utilizing classical self reports by Christian Jewish and Muslim mystics Patanjali's Yoga Sutras and modern Western peak experiences Merkur argues that experiences of mystical union are manifestations of a broader category of psychological processes that manifest in scientific and moral thought as well as in mysticism Unconscious as well as conscious unitive thinking is sometimes realistic and sometimes fantastic in patterns that are consistent with cognitive development in general Mystical moments of unitive thinking may be considered moments of creative inspiration that happen to make use of unitive ideas Building on the psychoanalytic object relations theory that the self is always in relationship with an object Merkur argues that the solipsism of some varieties of mystical union always implies unconscious ideas of a love object who is transcendent *The Near-Death Experience* Lee W. Bailey, Jenny Yates, 2013-06-17 *The Near Death Experience A Reader* is the most comprehensive collection of NDE cases and interpretations ever assembled This book encompasses a broad range of disciplines psychological researchers discuss cognitive models and Jungian theories of meaningful archetypal phenomena the biological perspective describes how brains near death may produce soothing endorphins optical illusions and convincing hallucinations

Philosophers present empirical analyses and images in archetypal theories and the symbolic language of comparative phenomenological theories Christian Jewish and Mormon responses to NDEs outline the religious perspective and the mystical and spiritual interpretations of NDEs are also explored
