Texts and Contexts Doug Munro, Brij V. Lal, 2005-11-30 Texts and Contexts is concerned with the development of Pacific Islands history as a specialization in its own right Specifically this volume examines the foundational texts that pioneered and consolidated the new subdiscipline and served as the building blocks and stepping stone for further developments in the field Thirty five texts all of which represent defining points in the development of Pacific Islands historiography are examined Much more than retrospective appraisals of the foundational texts the individual chapters consider a text or complimentary texts within the context of the time of writing and gauge what ongoing influence they exerted In some cases they suggest how a particular text has been superseded by subsequent work that breaks new conceptual ground in the ongoing process of revisionism Contributors Chris Ballard on Gavin Souter Ivan Brady on Greg Denning I C Campbell on Norma McArthur Bronwen Douglas and Doug Munro on H E Maude and Dorothy Shineberg Michael Goldsmith on Marshall Sahlins David Hanlon on Francis X Hezel K R Howe on

The Nostalgic Imagination Stefan Collini, 2019-01-03 This unusual book explores the historical assumptions at work in the style of literary criticism that came to dominate English studies in the twentieth century Stefan Collini shows how the work of critics renowned for their close attention to the words on the page was in practice bound up with claims about the nature and direction of historical change the interpretation of the national past and the scholarship of earlier historians Among the major figures examined in detail are T S Eliot F R Leavis William Empson and Raymond Williams while there are also original discussions of such figures as Basil Willey L C Knights Q D Leavis and Richard Hoggart The Nostalgic Imagination argues that in the period between Eliot's *The Sacred Wood* and Williams's *The Long Revolution* the writings of such critics came to occupy the cultural space left by academic history's retreat into specialized archive bound monographs Their work challenged the assumptions of the Whig interpretation of English history and entailed a revision of the traditional relations between literary history and general history Combining close textual analysis with wide ranging intellectual history this volume both revises the standard story of the history of literary criticism and illuminates a central feature of the cultural history of twentieth century Britain

The Myth Of Decline George L Bernstein, 2011-05-31 This history of Britain since 1945 confronts two themes that have dominated British consciousness during the post war era the myth of decline and the pervasiveness of American influence The political narrative is about the struggle to maintain a power that was illusory and from 1960 on to reverse an economic decline that was nearly as illusory The British economy had its problems which are fully analyzed however they were counterbalanced by an unparalleled prosperity At the same time there was a social and cultural revolution which resulted in a more exciting dynamic society While there was much American influence there was no Americanization American influences were incorporated with many others into a new and less stodgy British culture Contrary to conventional wisdom this groundbreaking book finds that the story of Britain since the war is marked not by decline but by progress on almost all fronts

Charles Stewart Parnell and His Times N. C. Fleming, Alan O'Day, 2011-07-06 Charles Stewart Parnell 1846-1891 wrote remarkably little about himself but he has attracted the attention of many writers politicians and scholars both during his lifetime and ever since His controversial and provocative role in Irish and British affairs had him vilified as a murderer in *The Times* and afterwards dramatically vindicated by the Westminster Parliament It cast him as a romantic hero to the young James Joyce and a self serving opportunist to the journalists of the *Nation* Parnell has been the subject of court cases parliamentary enquiries and debates journalism plays poems literary analysis and historical studies For the first time all these have been collected catalogued and cross referenced in one volume and

invaluable resource for scholars of late nineteenth century Ireland and Britain Divided into fifteen chapters including a biographical sketch the volume contains information on manuscript and archival collections printed primary sources Parnell's writing Parnell's speeches in the House of Commons and outside Parliament contemporary journalism contemporary writing and contemporary illustrations on Irish affairs and a substantial list of scholarly work including biographies books articles chapters and theses This volume offers readers a clear record of the substantial material already available on Parnell and in doing so offers resources to future research in this area Gladstone Centenary Essays David Bebbington, Roger Swift, 2000-01-01 In 1998 an international conference brought Gladstone scholars together to mark the centenary of his death and some of the papers presented on that occasion are published in this volume They cover topics such as parliamentary reform and free trade **Explaining Auschwitz and Hiroshima** Richard J. B. Bosworth, 2002-01-31 First published in 1993 Routledge is an imprint of Taylor Francis an informal company **Political Thought and the Tudor Commonwealth** Paul Fidler, Thomas Mayer, 2003-09-02 Shining new light onto an historically pivotal time this book re-examines the Tudor commonwealth from a socio-political perspective and looks at its links to its own past Each essay in this collection addresses a different aspect of the intellectual and cultural climate of the time going beyond the politics of state into the underlying thought and tradition that shaped Tudor policy Placing security and economics at the centre of debate the key issues are considered in the context of medieval precedence and the wider European picture *Anti-democracy in England, 1570-1642* Cesare Cuttica, 2022 Anti-democracy in England 1570-1642 is a detailed study of anti-democratic ideas in early modern England By examining the rich variety of debates about democracy that took place between 1570 and 1642 it shows the key importance anti-democratic language held in the late Tudor and early Stuart periods In particular it argues that anti-democratic critiques were addressed at popular government as a regime that empowered directly and fully the irrational uneducated dangerous commonalty it explains why and how criticism of democracy was articulated in the contexts here under scrutiny and it demonstrates that the early modern era is far more relevant to the development of democratic concepts and practices than has hitherto been acknowledged The study of anti-democracy is carried out through a close textual analysis of sources often neglected in the history of political thought and by way of a contextual approach to Elizabethan Jacobean and Caroline history Most importantly the study re-evaluates the role of religion and cultural factors in the history of democracy and of political ideas more generally The point of departure is at a time when the establishment and Presbyterians were at loggerheads on pivotal politico-ecclesiastical and theoretical matters the end coincides with the eruption of the Civil Wars Cesare Cuttica not only places the unexplored issue of anti-democracy at the centre of historiographical work on early modern England but also offers a novel analysis of a precious portion of Western political reflection and an ideal platform to discuss the legacy of principles that are still fundamental today Engagement with the Past William Palmer, 2021-10-21 Arthur M Schlesinger Jr John Hope Franklin Daniel Boorstin C Vann Woodward Edmund S
