Wendt,2016-08-18 In his sixth satire Juvenal speculates about how Roman wives busy themselves while their husbands are away namely by entertaining a revolving door of exotic visitors who include a eunuch of the eastern goddess Bellona an impersonator of Egyptian Anubis a Judean priestess and Chaldean astrologers From these self proclaimed religious specialists women solicit services ranging from dream interpretation to the coercion of lovers Juvenal s catalogue suggests the popularity of such freelance experts at the turn of the second century and their familiarity to his audience whom he could expect to get the joke Heidi Wendt investigates the backdrop of this enthusiasm for the religion of freelance experts by examining their rise during the first two centuries of the Roman Empire Unlike civic priests and temple personnel freelance experts had to generate their own authority and legitimacy often through demonstrations of skill and learning in the streets in marketplaces and at the temple gates among other locations in the Roman world Wendt argues that these professionals participated in a highly competitive form of religious activity that intersected with multiple areas of specialty particularly philosophy and medicine Over the course of the imperial period freelance experts grew increasingly influential more diverse with respect to their skills and methods and more assorted in the ethnic coding of their practices Wendt argues that this context engendered many of the innovative forms of religion that flourished in the second and third centuries including phenomena linked with Persian Mithras the Egyptian gods and the Judean Christ The evidence for freelance experts in religion is abundant but scholars of ancient Mediterranean religion have only recently begun to appreciate their impact on the empire s changing religious landscape At the Temple Gates integrates studies of Judaism Christianity mystery cults astrology magic and philosophy to paint a colorful portrait of religious expertise in early Rome **The Religion of the**

The Individual in the Religions of the Ancient Mediterranean Jörg Rüpke, 2013-08-29 Ancient religions are usually treated as collective and political phenomena and apart from a few towering figures the individual religious agent has fallen out of view Addressing this gap the essays in this volume focus on the individual and individuality in ancient Mediterranean religion Even in antiquity individual religious action was not determined by traditional norms handed down through families and the larger social context but rather options were open and choices were made On the part of the individual this development is reflected in changes in individuation the parallel process of a gradual full integration into society and the development of self reflection and of a notion of individual identity These processes are analysed within the Hellenistic and Imperial periods down to Christian dominated late antiquity in both pagan polytheistic as well as Jewish monotheistic settings The volume focuses on individuation in everyday religious practices in Phoenicia various Greek cities and Rome and as identified in institutional developments and philosophical reflections on the self as exemplified by the Stoic Seneca

It covers more than 1200 years of political and military history including many of the famous and infamous personalities who featured in them. Further, it describes the religions, society and daily life of the Romans and their literature, art, architecture and technology illustrated by extracts in new translations from Latin and Greek authors of the times. This second edition contains extensive additional and revised material designed to enhance the value of the book to students especially of classical or Roman civilization, Roman history or elementary Latin as well as to general readers and students of other disciplines for whom an understanding of the civilization and literature of Rome is desirable. In particular, the chapter on religions has been expanded as have the sections on the role of women and on Roman social divisions and cultural traditions. There is more too on the diversity and administration of the empire at different periods, on changes in the army and on significant figures of the middle and later imperial eras. New features include a glossary of Latin terms and timelines. Maps have been redrawn and new ones included along with extra illustrations and reading lists have been revised and updated. The book now has its own dedicated website at www.the-romans.co.uk which is packed full of additional resources. **Roman Religion and the Cult of Diana at Aricia** C. M. C. Green, 2007 The sanctuary dedicated to Diana at Aricia flourished from the Bronze age to the second century CE. From its archaic beginnings in the wooded crater beside the lake known as the mirror of Dianea, it grew into a grand Hellenistic style complex that attracted crowds of pilgrims and the sick. Diana was also believed to confer power on leaders. This book examines the history of Diana's cult and healing sanctuary which remained a significant and wealthy religious center for more than a thousand years. It sheds new light on Diana herself, on the use of ritual as well as rational healing in the sanctuary, on the subtle distinctions between Latin religious sensibility and the more austere Roman practice and on the interpenetration of cult and politics in Latin and Roman history. Scenting Salvation Susan Ashbrook Harvey, 2015-08-25 This book explores the role of bodily sensory experience in early Christianity, first century AD, by focusing on the importance of smell in ancient Mediterranean culture. Following its legalization in the fourth century, Roman Empire Christianity cultivated a dramatically flourishing devotional piety in which the bodily senses were utilized as crucial instruments of human-divine interaction. Rich olfactory practices developed as part of this shift, with lavish uses of incense, holy oils and other sacred scents. At the same time, Christians showed profound interest in what smells could mean. How could the experience of smell be construed in revelatory terms? What specifically could it convey? How and what could be known through smell? *Scenting Salvation* argues that ancient Christians used olfactory experience for purposes of a distinctive religious epistemology, formulating knowledge of the divine in order to yield, in turn, a particular human identity. Using a wide array of Pagan, Jewish and Christian sources, Susan Ashbrook Harvey examines the ancient understanding of smell through religious rituals, liturgical practices, mystagogical commentaries, literary imagery, homiletic

conventions scientific medical and cosmological models ascetic disciplines theological discourse and eschatological expectations In the process she argues for a richer appreciation of ancient notions of embodiment and of the roles the body might serve in religion *Beck on Mithraism* Roger Beck,2020-11-25 Roger Beck a world authority on Mithraism brings together his major writings on the Mysteries of Mithras in the context of the culture and religions of imperial Rome In these studies he opens new vistas on myth making ritual symbolism the role of astrology in the cult recently discovered Mithraic monuments and artefacts and the emergence of Mithraism and Christianity concurrently in the first century Beck offers new introductions to his thematically framed groups of writings and adds six entirely new essays published here for the first time These essays link his research to contemporary studies in cognitive science of religion and anthropology of religion This collection will appeal particularly to scholars exploring contemporary aspects in anthropology of religion astronomy and astrology cults and myths images and symbols as well as traditional scholars of Greco Roman antiquity and Christian origins

Life in Roman Empire Stanford Mc Krause,1951 At its peak the population of the city of Rome probably exceeded one million However the Roman Empire was an agricultural society where most people made a living from farming although there were many artisans Only a small minority of the population lived in cities There were basically two types of people citizens and non citizens Roman citizens had certain privileges In 212 AD all free people in the Roman Empire became citizens Edict of Caracalla Seven Congregations in a Roman Crucible Richard E. Oster,2013-03-05 Liturgical Elements for Reformed Worship is a series of four liturgical resources three consisting of liturgical elements for Years A B and C of the Revised Common Lectionary and a fourth the first such resource to support the implementation of Year D A Quadrennial Supplement to the Revised Common Lectionary Cascade Books Each volume consists of a Call to Worship Opening Prayer Call to Confession Prayer of Confession and Declaration of Forgiveness with Years A C including additional elements A Prayer in Preparation for Worship The Offering Prayer of Dedication and a Blessing suitable for Presbyterian Reformed and other Protestant worship Each of these practical volumes is intended for use by pastors liturgists and other planners and leaders of worship The Power of Sacrifice George Heyman,2007-10 In this work George Heyman offers a fresh perspective on the similarities between pagan Roman and Christian thinking about the public role of sacrifice in the first two and a half centuries of the Christian era *Religion and its History* Jörg Rüpke,2021-05-09 Religion and its History offers a reflection of our operative concept of religion and religions developing a set of approaches that bridge the widely assumed gulf between analysing present religion and doing history of religion Religious Studies have adapted a wide range of methodologies from sociological tool kits to insights and concepts from disciplines of social and cultural studies Their massive historical claims which typically idealize and reify communities and traditions and build normative claims thereupon lack a critical engagement on the part of the researchers This book radically rethinks and critically engages with these biases It does so by offering neither an abridged global history of religion nor a small handbook of methodology Instead this book

presents concepts and methods that allow the analysis of contemporary and past religious practices ideas and institutions within a shared framework
