Culture as Text, Text as Culture Elodie Lafitte, Christina Wall, Mary Cobb Wittrock, 2020-05-22 Culture as Text Text as Culture represents a novel interdisciplinary analysis of textuality as it pertains to Cultural Studies More specifically the work examines how the analysis of texts has shaped the most vital contemporary debate of Cultural Studies the recognition that all texts and their contexts are constructs Building upon a Post structural Post modern understanding of truth as a construct Cultural Studies has long since acknowledged the ability of texts to express the time and culture of their origin This work however expands this idea demonstrating not only how a culture is preserved in a text but how that text can in turn define its culture even redefine its history This compendium is structured around four of the most prominent contemporary topics of Cultural Studies the relationship between historical and fictional writing the ability of authors to recreate or redefine history the relationship between language and image and the ability for traditionally marginalized groups to reassert their place in history The book presents articles from a large spectrum of disciplinary fields and civilizations in order to demonstrate how the application of Cultural Studies can unite seemingly disparate disciplines

Shamans, Nostalgias, and the IMF Laurel Kendall, 2009-09-01 Thirty years ago anthropologist Laurel Kendall did intensive fieldwork among South Korea's mostly female shamans and their clients as a reflection of village women's lives In the intervening decades South Korea experienced an unprecedented economic social political and material transformation and Korean villages all but disappeared And the shamans Kendall attests that they not only persist but are very much a part of South Korean modernity This enlightening and entertaining study of contemporary Korean shamanism makes the case for the dynamism of popular religious practice the creativity of those we call shamans and the necessity of writing about them in the present tense Shamans thrive in South Korea's high rise cities working with clients who are largely middle class and technologically sophisticated Emphasizing the shaman's work as open and mutable Kendall describes how gods and ancestors articulate the changing concerns of clients and how the ritual frame of these transactions has itself been transformed by urban sprawl private cars and zealous Christian proselytizing For most of the last century Korean shamans were reviled as practitioners of antimodern superstition today they are nostalgically celebrated icons of a vanished rural world Such superstition and tradition occupy flip sides of modernity's coin the one by confuting the other by obscuring the beating heart of shamanic practice Kendall offers a lively account of shamans who once ministered to the domestic crises of farmers as they address the anxieties of entrepreneurs whose dreams of wealth are matched by their

omnipresent fears of ruin Money and access to foreign goods provoke moral dilemmas about getting and spending shamanic rituals express these through the longings of the dead and the playful antics of greedy gods some of whom have acquired a taste for imported whiskey No other book length study captures the tension between contemporary South Korean life and the contemporary South Korean shamans work Kendall s familiarity with the country and long association with her subjects permit nuanced comparisons between a 1970s then and recent encounters some with the same shamans and clients as South Korea moved through the 1990s endured the Asian Financial Crisis and entered the new millennium She approaches her subject through multiple anthropological lenses such that readers interested in religion ritual performance healing gender landscape material culture modernity and consumption will find much of interest here *Transformations Of The Confucian Way* John Berthrong,2018-10-08 From its beginnings Confucianism has vibrantly taught that each person is able to find the Way individually in service to the community and the world John Berthrong s comprehensive new work tells the story of the grand intellectual development of the Confucian tradition revealing all the historical phases of Confucianism and opening the reader s eyes to the often neglected gifts of scholars of the Han T ang and the modern periods as well as to the vast contributions of Korea and Japan The author concludes his revelatory study with an examination of the contemporary renewal of the Confucian Way in East Asia and its spread to the West *The Prism of Just War* Howard M.

Hensel,2016-03-03 Through a careful examination of religious and philosophical literature the contributors to the volume analyze compare and assess diverse Western Islamic Hindu and East Asian perspectives concerning the appropriate criteria that should govern the decision to resort to the use of armed force and once that decision is made what constraints should govern the actual conduct of military operations In doing so the volume promotes a better understanding of the various ways in which diverse peoples and societies within the global community approach the question of what constitutes the legitimate use of military force as an instrument of policy in the resolution of conflicts *Buddhist Faith and Sudden Enlightenment*

Sung Bae Park,1983-06-30 *Buddhist Faith and Sudden Enlightenment* explains how sudden enlightenment occurs through the awakening of patriarchal faith This is the non dual affirmation that one is already Buddha as opposed to the doctrinal dualistic faith that one can become Buddha The essence of the presentation is that patriarchal faith forms the basis for sudden enlightenment in Zen meditation For the practitioner this book establishes the Zen method of mind cultivation on a higher level by introducing a new understanding of awakening right faith Included is extensive material on the history of faith in Buddhism with the main attention devoted to Ch an Zen and Hua yen There are also substantial discussions of Buddhist antecedents to these schools and of the Pure Land School This is the first book in English to examine the central role of faith in Mahayana Buddhism The author s approach develops from his personal experiences as a son Zen monk of the Chogye order which was heavily influenced by the integration of meditation and scriptural study established by Chinul

An Introduction to International Relations and Religion Jeffrey Haynes,2014-04-23 Not so very long ago it seemed

reasonable to assert that the influence of religion on global politics was on the wane As the Western world became increasingly secular and the process of globalisation deepened it seemed inevitable on the surface at least that the voice of religion was to be heard softly if it was to be heard at all This has now changed and changed perhaps irrevocably As Jeff Haynes argues in this thought provoking and important new book various religious actors are now significantly involved in international relations and have become a crucial influence on policy in a post Westphalian world International Relations and Religion guides the reader through the complex issues at the heart of this topic with clarity and insight This updated second edition starts with a close reading of the many theoretical and analytical concepts notably Huntington and the clash of civilisations that have grown up around this area and then concludes with a summary of the issues under discussion and attempts to put into context what it means to live in a world that is increasingly shaped by a whole host of diverse religious groups Essential reading for students of International Relations and Politics *Consulting Spirits* Joel Bjorling, 1998-04-30 Throughout history people have been intrigued with spirits angels or devas as sources of wisdom and guidance They are not only interesting as those who possess an insight into events and circumstances but also as proof of life after death In this clear and useful reference guide Bjorling presents a listing of the literature on the various ways in which people of different cultures have consulted spirits through shamans and oracles magic mediums Voodoo and psychics Each chapter contains a general introduction to the respective topic as well as a listing of pertinent books articles and dissertations His survey also includes early spirit contacts in Africa Latin America and Asia *The Shaman's Wages* Kyoim Yun, 2019-09-30 Breaking from previous scholarship on Korean shamanism which focuses on mansin of mainland Korea The Shaman s Wages offers the first in depth study of simbang hereditary shamans on Cheju Island off the peninsula s southwest coast In this engaging ethnography enriched by extensive historical research Kyoim Yun explores the prevalent and persistent ambivalence toward practitioners whose services have long been sought out yet derided as wasteful by anti shaman commentators and occasionally by their clients Intrigued by discord between simbang and their clients over fee negotiations Yun set out to learn the deep rooted legacy of condemning or trivializing the practitioners self interests from a neo Confucian governor s purge of shrines during the Chos n dynasty to the recent transformation of a community ritual into a practice recognized through UNESCO World Heritage status Drawing on a wealth of firsthand observations she shows how simbang distinguish ritual exchanges from more mundane instances of bartering purchasing bribing and gift giving and explains why ritual affairs are nonetheless inevitably thorny This original study illuminates the intertwining of religion and economy in shamanic practice on Cheju Island **Psychology and Religion** Michael Argyle, 2005-10-25 First published in 1999 Routledge is an imprint of Taylor Francis an informa company *Mapping China and Managing the World* Richard Joseph Smith, 2013 From the founding of the Qin dynasty in 221 BCE to the present the Chinese have been preoccupied with the concept of order zhi This cultural preoccupation has found expression not only in China s highly refined bureaucratic institutions and methods of social

and economic organization but also in Chinese philosophy religious and secular ritual and a number of comprehensive systems for classifying every form of human achievement as well as all natural and supernatural phenomena Richard J Smith's *Mapping China and Managing the World* focuses on several crucial devices employed by the Chinese for understanding and ordering their vast and variegated world which they saw as encompassing all under Heaven The book begins with discussions of how the ancient work known as the *Yijing* Classic of Changes and maps of the world became two prominent means by which the Chinese in imperial times 221 BCE to 1912 managed space and time Smith goes on to show how ritual *li* served as a powerful tool for overcoming disorder structuring Chinese society and maintaining dynastic legitimacy He then develops the idea that just as the Chinese classics and histories ordered the past and ritual ordered the present so divination ordered the future The book concludes by emphasizing the enduring relevance of the *Yijing* in Chinese intellectual and cultural life as well as its place in the history of Sino foreign interactions This selection of essays by one of the foremost scholars of Chinese intellectual and cultural history will be welcomed by Chinese and East Asian historians as well as those interested more broadly in the cultures of and interactions between China and East Asia

Culture's Consequences Geert Hofstede, 2001
