Religious And Romantic Origins Of Psychoanalysis Individuation And Integration In Post Freudian Theory:

The Religious and Romantic Origins of Psychoanalysis Suzanne R. Kirschner, 1996-02-23 In this book Suzanne Kirschner traces the origins of contemporary psychoanalysis back to the foundations of Judaeo Christian culture and challenges the prevailing view that modern theories of the self mark a radical break with religious and cultural tradition. Instead she argues they offer an account of human development which has its beginnings in biblical theology and neoplatonic mysticism. Drawing on a wide range of religious literary philosophical and anthropological sources Dr Kirschner demonstrates that current Anglo American psychoanalytic theories are but the latest version of a narrative that has been progressively secularized over the course of nearly two millennia. She displays a deep understanding of psychoanalytic theories while at the same time raising provocative questions about their status as knowledge and as science. **The W.R. Bion Tradition** Howard B. Levine, Giuseppe Civitarese, 2018-05-01 This book provides a clear comprehensive and sequential account of Bion's thinking, his life experience and technical innovations, saturated with quotes from his diaries and theoretical papers. It offers clinical vignettes to illuminate salient aspects of the therapeutic encounter. The Colors of Childhood Salman Akhtar, Selma Kramer, 1998-04-01 How does culture affect child rearing practices? How do factors such as poverty, ethnic difference, racial minority status, and having immigrant parents alter the experience of a growing child? Are there culturally distinct subgroups within the African American population? How ubiquitous are psychoanalytically derived schedules of personality development? In what form and to what extent are transference and countertransference affected by such racial, ethnic, and economic issues? In this volume eight distinguished psychoanalysts, including some belonging to ethnic and racial minorities, attempt to answer these questions. They provide illuminating details of child rearing practices in African American, Indian, and Japanese families. They interweave mythological legacies, historical background, ethnographic data, and clinical observations into a rich tapestry of knowledge, empathy, and understanding. They try to tease out the variables of socioeconomic class from the issue of race and the ambiguities consequent upon raising children in a new and unfamiliar land from the ordinary and inevitable conflicts between generations. York Notes Companions: Romantic Literature John Gilroy, 2014-08-28 *The Modern Self in the Labyrinth* Eyal Chowers, 2009-07-01 This book proposes a new political imagination found in the works of Weber, Freud, and Foucault. Chowers characterizes it as one of entrapment whereby modern identity is constituted by participation in and internalization of the regulatory norms of the institutions that originated in the modern imagination. **Human Development and Faith (Second Edition)** Felicity B. Kelcourse, 2015-07-28 This book, now in its second edition, brings together the best available understandings of human development from a multidisciplinary perspective. Uniquely inclusive of the moral and faith dimensions of context and life cycle development, *Human Development and Faith* examines the interplay of mind, body, family, community, and soul at every stage of development. It addresses two central questions: What are the good enough conditions of parenting, family, and community in each phase of life from birth to

death which support growth and development What gives life adequate meaning as development proceeds If human development describes the normative and hoped for passages of life then faith provides the necessary component of meaning Throughout the various perspectives offered in this volume is the premise that faith is that quality of living that makes it possible to fully live The Journal of Pastoral Theology called the first edition of Human Development and Faith an excellent text for pastoral theology courses because it fulfills its ambitious goal of bringing a holistic faith perspective to the usual topics of development This second edition includes a new chapter on infancy updates reflecting our growing awareness of cultural diversity and a new preface

Towards a Christian Literary Theory L. Ferretter, 2002-12-17 Most modern literary theory is explicitly anti theological This book states the case for a contemporary literary theory whose principles derive from Christian theology Ferretter argues that it remains rationally and ethically legitimate to use theological language in literary theory despite the objections to such a theory posed by deconstruction Marxism and psychoanalysis He concludes with an assessment of how such a theory can be formulated and used in contemporary cultural analysis

Managed Lives: Psychoanalysis, inner security and the social order Steven Groarke, 2013-10-30 An inherent tension exists in the history of psychoanalysis and its applications between the concepts of freedom and security In Managed Lives this tension is explored from the point of view of therapeutic experience Set against the background of Freud's contested legacy the book examines ways of managing oneself under psychiatric supervision in the analytic encounter and in the emotional and moral contexts of everyday life Through a series of detailed case studies Steven Groarke addresses therapeutic experience as a formation of managed society examining the work of Donald Winnicott on types of management Colin Murray Parkes on bereavement and Anthony Giddens on the sociological appropriation of psychoanalysis Managed Lives forms an original critical analysis of contemporary managerial culture and its self reflexive project as well as presenting the idea of management as a source of inner security and vital morality Presented in three parts the book addresses The Criterion of Maturity The Reflexive Norm The Managed Society Together the book's arguments provide a fresh and challenging perspective on post Freudian uses of faith the risks of critical rationality and the difficulties of living an ethical life under modern conditions Managed Lives is ideal for academics and research students working on psychoanalytic studies social theory and mental health studies as well as students and trainees taking courses in psychotherapy counselling social work and health and social care

Scharff, Sverre Varvin, 2018-03-08 The introduction of psychoanalysis to China over the last twenty years brings a clash between Eastern and Western philosophical backgrounds Chinese patients therapists and trainees struggle with assumptions inherent in an analytic attitude steeped in Western ideas of individualism that are often at odds with a Chinese Confucian ethic of respect for the family and the work group The situation is further complicated by the rapid evolution of Chinese culture itself emerging from years of trauma new economics and the one child policy of the last generation that has introduced a new Chinese brand of individualism and new family structure that are not equivalent to those of the West This volume breaks new ground in exploring these issues and challenges to the introduction of analytic therapies into China from the viewpoint of Western teachers and Chinese teachers clinicians anthropologists and observers
