Christian Ritualizing and the Baptismal Process Susan Marie Smith, 2011-11-15 Most people even non Christians know that Christians gather for worship once a week and that they are right there to support each other when there is a baptism or a wedding or a funeral But what about other poignant vulnerable or life changing times How does the church help people handle changes that in the past in Christendom were considered secular Does the church have a role at retirement when one's ministry changes or when a family's children leave home and familiar patterns seem to grind to a halt Is there any rite possible for someone who is called to Christian ministry but not to ordination Or to someone whose vows are broken in divorce

Christian Ritualizing and the Baptismal Process asserts that baptism marks the beginning of a process of participation in Christ's ministry so that no part of life can finally be considered secular Susan Marie Smith shows how every passage healing and ministry vocation is holy and she lays the groundwork needed for every church to create the rituals necessary to lament and celebrate the endings and beginnings that happen in every Christian life

Ritual and Symbol in Peacebuilding Lisa Schirch, 2005 Serves as a guide to using ritual acts in peacebuilding efforts Abundant with examples of symbolic acts that aided the peace process Conflict is dramatic In theater literature story telling and news reporting it is a powerful mechanism that draws attention heightens the senses and evokes emotion Schirch argues that peacebuilding has the potential to do just the same Examples of peacebuilding often center on the serious rational negotiations and formal problem solving efforts in conflict situations Schirch argues though that what truly bonds adversaries and helps achieve peace are the symbolic non verbal ritual acts shaking hands sharing a meal showing a photograph of a loved one Yet these are often overlooked as deliberate components of peace negotiations

The Dysfunction of Ritual in Early Confucianism Michael David Kaulana Ing, 2012-11-01 In *The Dysfunction of Ritual in Early*

Confucianism Michael Ing describes how early Confucians coped with situations where their rituals failed to achieve their intended aims In contrast to most contemporary interpreters of Confucianism Ing demonstrates that early Confucian texts can be read as arguments for ambiguity in ritual failure If as discussed in one text Confucius builds a tomb for his parents unlike the tombs of antiquity and rains fall causing the tomb to collapse it is not immediately clear whether this failure was the result of random misfortune or the result of Confucius straying from the ritual script by building a tomb incongruent with those of antiquity The Liji Record of Ritual one of the most significant yet least studied texts of Confucianism poses many of these situations and suggests that the line between preventable and unpreventable failures of ritual is not always clear Ritual performance in this view is a performance of risk It entails rendering oneself vulnerable to the agency of others and resigning oneself to the need to vary from the successful rituals of past thereby moving into untested and uncertain territory Ing s book is the first monograph in English about the Liji a text that purports to be the writings of Confucius s immediate disciples and included in the earliest canon of Confucian texts called The Five Classics several centuries before the Analects It challenges some common assumptions of contemporary interpreters of Confucian ethics in particular the idea that a cultivated ritual agent is able to recognize which failures are within his sphere of control to prevent and thereby render his happiness invulnerable to ritual failure

Language in the Buddhist Tantra of Japan Richard K. Payne, 2018-08-09 Language in the Buddhist Tantra of Japan dismantles the preconception that Buddhism is a religion of mystical silence arguing that language is in fact central to the Buddhist tradition By examining the use of extraordinary language evocations calling on the power of the Buddha in Japanese Buddhist Tantra Richard K Payne shows that such language was not simply cultural baggage carried by Buddhist practitioners from South to East Asia Rather such language was a key element in the propagation of new forms of belief and practice In contrast to Western approaches to the philosophy of language which are grounded in viewing language as a form of communication this book argues that it is the Indian and East Asian philosophies of language that shed light on the use of language in meditative and ritual practices in Japan It also illuminates why language was conceived as an effective means of progress on the path from delusion to awakening

Living Devotions Mary Clark Moschella, 2008-01-01 Living Devotions explores how a

particular community has creatively negotiated its religious bonds of connection in the context of immigration. These matters cannot be studied in the abstract. Religious practice is not something separate from the economic, cultural, and psychological dimensions of life but rather something integral which shapes and is being shaped by all of these other realities. The author examines these dynamics through an ethnographic case study of the living devotions of a group of Italian Catholic immigrants to San Pedro, California. The narrative describes how the group's historical experiences of immigration and fishing find expression in their particular forms of prayer, art, artifacts, and food. The healing and transformative power of these shared religious practices is explored. As contemporary theologians, pastors, and congregations seek to welcome and care for immigrants and other strangers in a shifting social landscape, we need ways to engage in care full and attentive relationships. The ethnographic method employed here suggests a way to lift up the voices of ordinary people, allowing them to tell their own stories while piecing together emerging bits of theological wisdom and compelling care practices. While the particular insights of any community are situated and specific, theological reflection in one context can animate a broader discussion of transformative pastoral theology and practice.

Methods in Buddhist Studies Scott A. Mitchell, Natalie Fisk Quli, 2019-06-27

Both a demonstration of and critical self-reflection on method, this book explores how methodologies shape our understanding of the diversity of Buddhist traditions in the past and the present. International contributors from the West and Asia explore case studies and reflect on methods in the study of Buddhism, united in their debt to Richard K. Payne, the influential Buddhist studies scholar. *Methods in Buddhist Studies* features new translations of Buddhist works as well as ethnographic studies on contemporary Buddhism in the United States and China. Topics discussed include Buddhist practices in relation to food, material culture, and imperial rituals; the development of modern Buddhist universities; the construction of the canon from the perspective of history, textual analysis, and ritual studies; and the ethical obligations of scholars toward the subject of Buddhism itself. Chapters are drawn from Payne's students and his colleagues, demonstrating the breadth of his intellectual interests. Payne's scholarship has left a remarkable impact on the field, making this volume essential reading for students and scholars of contemporary Buddhism and Buddhist studies.

Toward More Family-Centered Family Sciences Howard M. Bahr, Kathleen S. Bahr, 2009-03-16

Much academic writing on families reflects the ideal of non-involvement and distanced subject matter. *Toward More Family-Centered Family Sciences* suggests that the family sciences, in their effort to be scientific, have perpetuated this distance between researcher and subject to the detriment of both. The authors argue that family and kinship ties are transcendent, boundary-crossing in numerous ways. They place an emphasis on family love in contrast and in addition to romantic love and

criticize current approaches for neglecting the importance of transcendent concepts such as love commitment respect and sacrifice in the development and well being of family structures Drawing from insights both inside and outside of academia the authors seek to reincorporate transcendent concepts into the study of the family as a unit of society They argue for a more collaborative family centered family science and offer recommendations for how family researchers might work to change the scientific monologue about families to a systemic dialogue with families
