The Biological Evolution of Religious Mind and Behavior Eckart Voland, Wulf Schiefenhövel, 2009-08-12 In a Darwinian world religious behavior just like other behaviors is likely to have undergone a process of natural selection in which it was rewarded in the evolutionary currency of reproductive success This book aims to provide a better understanding of the social scenarios in which selection pressure led to religious practices becoming an evolved human trait i e an adaptive answer to the conditions of living and surviving that prevailed among our prehistoric ancestors This aim is pursued by a team of expert authors from a range of disciplines Their contributions examine the relevant physiological emotional cognitive and social processes The resulting understanding of the functional interplay of these processes gives valuable insights into the biological roots and benefits of religion

New Directions in Identity Theory and Research Jan E. Stets, Richard T. Serpe,2016-07-01

Over the past four decades and most especially in recent years as issues of identity continue to play out across the public stage identity theory has developed into one of the most fascinating and active research programs within the spheres of sociological social psychology Having emerged out of a landmark 2014 national conference that sought to integrate various research programs and to honor the groundbreaking work of Dr Peter J Burke New Directions in Identity Theory and Research brings together the pioneers, scholars and researchers of identity theory as they present the important theoretical, methodological and substantive work in identity theory today Edited by Dr Jan E Stets and Dr Richard T Serpe this volume asserts that researchers and scholars can no longer rely on using samples, measures, concepts and mechanisms that limit the overall advancement of identity theory and research Instead as Stets and Serpe contend in their introductory chapter Researchers constantly must try out new ideas, test the ideas with more refined measures, use samples that are

representative yet racially and ethnically diverse and employ methods perhaps mixed methods that capture the different dimensions of the identity process This book is the truest testament to this idea In **New Directions in Identity Theory and Research** Stets Serpe and contributing authors urge readers to think outside the box by providing the road map necessary to guide future work and thought in this emerging field

Toward a Christian Clinical Psychology Louis Hoffman, 2015-10-01 I have known Professor Newton Malony for more than

forty years I have great respect for the way his mind works and the wise positions he takes. He is at once stimulating and creative, historically thorough and futuristically insightful. I highly recommend any encounter with substantive material from his mind and pen. Neil Clark Warren, Founder and Chairman eHarmony.com, former dean, School of Psychology, Fuller Theological Seminary. Newton Malony is an internationally recognized pioneer in the application of religious principles to clinical practice and research. He is capable like few others of bridging professional differences and arriving at reasonable conclusions. Allen E. Bergin, Professor of Psychology, retired coauthor *Spiritual Strategy for Counseling and Psychotherapy*. For Newton Malony, psychology exists in the service of religion. With the histories of the Christian church and psychology as his backdrop, Malony holds fast to his religious values throughout this book, making a case for the relevance of Christianity to a broad range of issues in clinical psychology. Gordon Nagayama Hall, Professor of Psychology, University of Oregon, author *Multicultural Psychology*. Newton Malony was a major force in reinventing the psychology of religion during the second half of the twentieth century. This book highlights his contribution to clinical psychology in Christian context. Malony's ideas go a long distance, and this book is a wonderful collection and culmination of them. Raymond F. Paloutzian, editor *International Journal for the Psychology of Religion*, coeditor *Handbook of the Psychology of Religion and Spirituality*. This excellent collection of Malony's contributions to the integration of Christian faith and clinical psychology provides a rich and indispensable resource for scholars and students interested in psychology and the religious quest. Writing over many years about complex matters of emotional health and spiritual life, he has given us a gift that is accessible, enjoyable, and deeply relevant. Winston E. Gooden, dean, School of Psychology, Fuller Theological Seminary. What a treat it is to recommend this really solid collection that represents more than four decades of creative engagement with key issues in applied and professional psychology, effective ministry in the context of the local church, and some really fascinating musings by a senior spokesperson in the field. Richard Butman, Professor of Psychology, Wheaton College, coeditor *Modern Psychotherapies: A Christian Appraisal*.

Religion and Political Tolerance in America Paul Djupe, 2015-06-30. Religious institutions are

often engaged in influencing the beliefs and values that individuals hold But religious groups can also challenge how people think about democracy including the extension of equal rights and liberties regardless of viewpoint or what is commonly called political tolerance The essays in Religion and Political Tolerance in America seek to understand how these elements interrelate The editor and contributors to this important volume present new and innovative research that wrestles with the fundamental question of the place of religion in democratic society They address topics ranging from religious contributions to social identity to the political tolerance that religious elites clergy hold and advocate to others and how religion shapes responses to intolerance The conclusion by Ted Jelen emphasizes that religion's take on political tolerance is nuanced and that they are not incompatible religion can sometimes enhance the tolerance of ordinary citizens *The Faith Instinct*
