The Heart of Islam Seyyed Hossein Nasr,2009-03-17 As the specter of religious extremism has become a fact of life it can be very easy to believe that the evil actions of a minority stand for the values of an entire tradition Recently there has been much confusion in the Western world concerning distorted portrayals of Islam s core values Drawing on Islamic scripture teaching and tradition Seyyed Hossein Nasr presents the true spiritual and social values of Islam such as peace compassion social justice and tolerance Nasr calls fellow members of the Abrahamic religions Judaism Christianity and Islam to a new future of mutual respect and common global purpose as he portrays the beauty and appeal of a faith that is embraced by more than a billion people Professor Seyyed Hossein Nasr was born in Tehran Iran in 1933 He received his advanced education at M I T and Harvard University returning to teach at Tehran University from 1958 1979 where he also served as Dean of the Faculty of Letters and Vice Chancellor He founded the Iranian Academy of Philosophy and served as its first president and was also for several years president of Aryamehr University Since 1984 he has been University Professor of Islamic Studies at George Washington University in Washington D C and President of the Foundation for Traditional Studies At a time when Islam is frequently misunderstood and often maligned this sensitive insightful and beautifully written book comes as a ray of sunshine Mark Juergensmeyer author of Terror in the Mind of God The Biographical Encyclopedia of Islamic Philosophy Oliver Leaman,2015-07-16 Philosophy flourished in the Islamic world for many centuries and continues to be a significant feature of cultural life today Now available in paperback The Biographical Encyclopedia of Islamic Philosophy covers all the major and many minor philosophers theologians and mystics who contributed to its development With entries on over 300 thinkers and key concepts in Islamic philosophy this updated landmark work also includes a timeline glossary and detailed bibliography It goes beyond philosophy to reference all kinds of theoretical inquiry which were often linked with philosophy such as the Islamic sciences grammar theology law and traditions Every major school of thought from classical Peripatetic philosophy to Sufi mysticism is represented and entries range across time from the early years of the faith to the modern period Featuring an international group of authors from South East Asia the Indian Subcontinent the Middle East and North Africa Europe and North America The Biographical Encyclopedia of Islamic Philosophy provides access to the ideas and people comprising almost 1400 years of Islamic philosophical tradition **Economic Empowerment Of Women In The Islamic World: Theory And Practice** Toseef Azid,Jennifer L Ward-batts,2020-06-22 The book Economic Empowerment of Women in the Islamic World discusses the economic social and political rights and status of women in Islam which is theoretically given by the Islamic Jurisprudence Shariah law The chapters in this volume will address historical practices in comparison to the status of women in the contemporary Muslim world Men and women in Islam regardless of

their age social class and education are equal as citizens and individuals but not identical in their rights and responsibilities It can be observed from Islamic history that in the early age of Islam women were given full confidence trust and high responsibilities in leadership educational guidance and decision making This volume will try to clarify the confusion in the status of the women in Islam that is presented by the media as it is assumed that theoretical Islamic empowerment of women bears little relation to the real conditions of women in modern Muslim societies It has been widely claimed in the media that Muslim women suffer more than men in Muslim societies and communities in terms of insecurity domestic abuse and low access to education and medical care It is also stated in the press and media that absence of good governance also results in gender inequality and violation of the rights of Muslim women This volume also aims to provide the solutions for the empowerment of women in the Islamic world We assumed that without good governance the status of women is not likely to improve Muslim women have the potential to play a fundamental role in curbing corruption social ills violence and crime in the Muslim world This volume will make the case that in order to achieve stability and prosperity the government must ensure a platform for women to participate in decision making and hence benefit from the rights they are accorded in Islam By covering a range of perspectives on the economic lives of Muslim women around the world it hopes to shed light on the problems faced and to offer possible solutions to the empowerment of women in the Islamic world
