Reputation, Celebrity and Defamation Law David Rolph, 2016-04-08 Taking Robert Post's seminal article *The Social*

Foundations of Reputation and the Constitution as a starting point this volume examines how the concept of reputation changes to reflect social political economic cultural and technological developments It suggests that the value of a good reputation is not immutable and analyzes the history and doctrines of defamation law in the US and the UK A selection of Australian case studies illustrates different concepts of defamation law and offers insights into their specific nature Drawing on approaches to celebrity in media and cultural studies the author conceptualizes reputation as a media construct and explains how reputation as celebrity is of great contemporary relevance at this point in the history of defamation law *The A to Z of Australian Radio and Television* Albert Moran,Chris Keating,2009-08-04 Australians have become increasingly visible outside of the country as speakers and actors in radio and television their media moguls have frequently bought up foreign companies and people around the world have been able to enjoy such Australian productions as *The Flying Doctors* *Neighbours* and *Kath and Kim* The origins early development and later adaptations of radio and television show how Australia has gone from being a minor and rather parochial player to being a significant part of the international scene *The A to Z of Australian Radio and Television* provides essential facts and information concerning the Australian radio and television industry This is accomplished through the use of a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on directors producers writers actors television and radio series and television and radio stations *Reel Politics* Lemi Baruh,Ji Hoon Park,2020-05-22 In the mid 1980s Neil Postman claimed that television made entertainment the natural format for the representation of all experience While Postman s argument still is pertinent to a description of contemporary television shows it also seems increasingly more accurate to argue that reality based entertainment is quickly becoming the referential format for televisual representations of our experience in the 21st century Chapters in this edited volume explore reality television s place within contemporary media landscape in terms of its potential for political engagement The authors engage with a variety of issues such as politics of authenticity and performance audience reception of political issues ethics and media regulation politics of self presentation modernity and collective identity The diversity of perspectives and issues presented in this book cautions readers both against quickly dismissing reality television s potential as a platform for political discourse and against subscribing to the celebratory rhetoric regarding the democratic potential of reality television *Reel Politics Reality Television as a Platform for Political Discourse* furthers our understanding of the semiotic openness of the reality text and the variations in social cultural and political contexts across which the reality television genre formulas migrate *Trans-Reality Television* Sofie Van Bauwel,Nico Carpentier,2012-07-10 *Trans Reality Television The Transgression of Reality Genre Politics and Audience* offers an overview of contributions which engage with the phenomenon of reality television as a tool to reflect on societal and mediated transformations and transgressions While some contributors delve deep into the theoretical issues others approach the topic at hand through empirical studies of specific reality television formats and programs The chapters in this volume

are divided into four sections all of which deal with how we see the fluid social at work in reality television through the trans real trans politics trans genre and trans audience The first section stresses the concept of the trans real These chapters go into the complexity of the construction of reality in reality television The second section which deals with the concept of trans politics offers a diversity of perspectives on the articulation and re articulation of politics and the political In the third section trans genre the chapters analyze how the modern conceptualizations of genre and format are transcended Finally the last set of chapters articulate the concept of trans audiences using case studies of particular audiences and a study of reality celebrities Trans Reality Television concludes by returning to the sense and nonsense of the use of these post concepts
