Longest Day 1961:

Twentieth Century-Fox Peter Lev, 2013-03-15 When the Fox Film Corporation merged with Twentieth Century Pictures in 1935 the company posed little threat to industry juggernauts such as Paramount and MGM In the years that followed however guided by executives Darryl F Zanuck and Spyros Skouras it soon emerged as one of the most important studios Though working from separate offices in New York and Los Angeles and often of two different minds the two men navigated Twentieth Century Fox through the trials of the World War II boom the birth of television the Hollywood Blacklist and more to an era of exceptional success which included what was then the highest grossing movie of all time The Sound of Music Twentieth Century Fox is a comprehensive examination of the studio's transformation during the Zanuck Skouras era Instead of limiting his scope to the Hollywood production studio Lev also delves into the corporate strategies distribution models government relations and technological innovations that were the responsibilities of the New York headquarters Moving chronologically he examines the corporate history before analyzing individual films produced by Twentieth Century Fox during that period Drawn largely from original archival research Twentieth Century Fox offers not only enlightening analyses and new insights into the films and the history of the company but also affords the reader a unique perspective from which to view the evolution of the entire film industry

Suid, 2015-01-13 Guts and Glory The Making of the American Military Image in Film is the definitive study of the symbiotic relationship between the film industry and the United States armed services Since the first edition was published nearly two decades ago the nation has experienced several wars both on the battlefield and in movie theatres and living rooms at home Now author Lawrence Suid has extensively revised and expanded his classic history of the mutual exploitation of the film industry and the military exploring how Hollywood has reflected and effected changes in America's image of its armed services He offers in depth looks at such classic films as Wings Thirty Seconds Over Tokyo The Longest Day Patton Top Gun An Officer and a Gentleman and Saving Private Ryan as well as the controversial war movies The Green Berets M A S H The Deer Hunter Apocalypse Now Platoon Full Metal Jacket and Born on the Fourth of July

Cycles, Sequels, Spin-offs, Remakes, and Reboots Amanda Ann Klein, R. Barton Palmer, 2016-03-15 With sequels prequels remakes spin offs or copies of successful films or franchises dominating film and television production it sometimes seems as if Hollywood is incapable of making an original film or TV show These textual pluralities or multiplicities while loved by fans who flock to them in droves tend to be dismissed by critics and scholars as markers of the death of high culture Cycles Sequels Spin offs Remakes and Reboots takes the opposite view surveying a wide range of international media multiplicities for the first time to elucidate their importance for audiences industrial practices and popular culture The essays in this volume offer a broad picture of the ways in which cinema and television have used multiplicities to streamline the production process and to capitalize on and exploit viewer interest in previously successful and or sensational story properties An impressive lineup of established and emerging scholars talk

seriously about forms of multiplicity that are rarely discussed as such including direct to DVD films made in Nigeria cross cultural Japanese horror remakes YouTube fan generated trailer mash ups and 1970s animal revenge films They show how considering the particular bonds that tie texts to one another allows us to understand more about the audiences for these texts and why they crave a version of the same story or character or subject over and over again These findings demonstrate that far from being lowbrow art multiplicities are actually doing important cultural work that is very worthy of serious study

Global Geopolitics Klaus J. Dodds, 2014-05-22 Employing thematic investigation and illustrated through case studies Dodds explores how global politics is imagined and practised by countries such as the US and other organisations including Greenpeace the IMF and CNN International In addition the author discusses how issues such as environmental degradation terror networks anti globalisation protests and North South relations challenge consolidate and subvert the existing international political system
