Charles Frederick Holder,1893 **Desire in Dante and the Middle Ages** Manuele Gragnolati,2017-07-05 This volume takes Dante's rich and multifaceted discourse of desire from the Vita Nova to the Commedia as a point of departure in investigating medieval concepts of desire in all their multiplicity fragmentation and interrelation As well as offering several original contributions on this fundamental aspect of Dante's work it seeks to situate the Florentine more effectively within the broader spectrum of medieval culture and to establish greater intellectual exchange between Dante scholars and those from other disciplines The volume is also notable for its openness to diverse critical and methodological approaches In considering the extent to which modern theoretical paradigms can be used to shed light upon the Middle Ages it will interest those engaged with questions of critical theory as well as medieval culture **The Complete Writings** Charles Dudley Warner,2018-04-05 Reproduction of the original The Complete Writings by Charles Dudley Warner **Catalogue of Title Entries of Books and Other Articles** ,1899 Kaethe Kollwitz Robert Joseph Fanning,1956 **Jewish Art in Nazi Germany** Dana Smith,2022-03-27 This book provides a social and cultural history of Jewish art in Nazi Germany with a focus on the Jewish artists art critics and audiences in Nazi Bavaria From the time of its conceptualization in the autumn of 1933 until its final curtain call in November 1938 the Jewish Cultural League in Bavaria sustained three departments music visual arts and adult education The Bavarian example steps outside the highly professional cultural milieu of Jewish Berlin and instead looks at relatively unknown efforts of Bavarian Jewish artists as they used art to define what it now meant to them to be Jewish under Nazism Insightful and engaging this book is ideal for advanced undergraduate students graduate students and scholars interested in social and cultural histories of Jews in Germany **The Life of Richard Wagner** Ernest Newman,2014-03-20 Newman's Life of Wagner published between 1933 and 1947 the culmination of forty years research is a classic biography **Helene Deutsch** Paul Roazen,2020-03-09 Student and protege of Sigmund Freud Helene Deutsch was one of the most influential psychoanalysts of her time An early woman analyst Deutsch was an ardent feminist and a leading proponent of Freud's controversial theories about the psychology of women Deutsch was also one of the first prominent career women to combine a professional life with motherhood even though she never resolved her own conflicts over those contradictory demands At the time of her death in 1982 at the age of 97 Helene Deutsch was the last survivor of Freud's original circle from Vienna This volume is a definitive account of the life and works of this remarkable and enigmatic woman The author knew Deutsch personally and was given exclusive access to her papers after her death The private life of Helene Deutsch was as unconventional as her professional life While Felix Deutsch a physician who specialized in psychosomatic medicine was to remain her husband for fifty years and father her son Martin their relationship was highly eccentric Roazen produces evidence that indicates Felix Deutsch may have been homosexual also that their son was raised primarily by Felix as Helene was more interested in her career than was Felix in his and the Deutsches often lived continents apart With the rise of Nazism Helene Deutsch departed in 1935 for America She was welcomed in Cambridge Massachusetts by the Boston

Psychoanalytic Society and was made director of the Society's new institute for the training of analysts. Her two-volume *The Psychology of Women* published in 1945 remains one of the foundations of modern analysis. Roazen's biography is an authoritative portrait of a pioneer of psychoanalysis and one of the unique women of her day. It will be of interest to psychoanalysts, cultural historians, and specialists in women's studies.

Helene Deutsch Paul Roazen, 1992. Student and protégé of Sigmund Freud, Helene Deutsch was one of the most influential psychoanalysts of her time. An early woman analyst, Deutsch was an ardent feminist and a leading proponent of Freud's controversial theories about the psychology of women. Deutsch was also one of the first prominent career women to combine a professional life with motherhood, even though she never resolved her own conflicts over those contradictory demands. At the time of her death in 1982, at the age of 97, Helene Deutsch was the last survivor of Freud's original circle from Vienna. This volume is a definitive account of the life and works of this remarkable and enigmatic woman. The author knew Deutsch personally and was given exclusive access to her papers after her death. The private life of Helene Deutsch was as unconventional as her professional life. While Felix Deutsch, a physician who specialized in psychosomatic medicine, was to remain her husband for fifty years and father her son, Martin, their relationship was highly eccentric. Roazen produces evidence that indicates Felix Deutsch may have been homosexual, also that their son was raised primarily by Felix, as Helene was more interested in her career than was Felix in his, and the Deutsches often lived continents apart. With the rise of Nazism, Helene Deutsch departed in 1935 for America. She was welcomed in Cambridge, Massachusetts, by the Boston Psychoanalytic Society and was made director of the Society's new institute for the training of analysts. Her two-volume *The Psychology of Women* published in 1945 remains one of the foundations of modern analysis. Roazen's biography is an authoritative portrait of a pioneer of psychoanalysis and one of the unique women of her day. It will be of interest to psychoanalysts, cultural historians, and specialists in women's studies.

European Studies University of California Berkeley *Paradox, Aphorism and Desire in Novalis and Derrida* Clare Kennedy, 2008 Building on recent investigations into affinities between early German Romanticism and French post structuralism this study brings together the work of Jacques Derrida with the writings of one of early Romanticisms most important theorists Friedrich von Hardenberg 1772 1801 better known as Novalis In contrast to recent criticism which traces the historical path from Romanticism to modern theory in broad strokes this book undertakes comparative readings of Novalis and Derridas texts on literature and philosophy The book focuses on the significance both writers accord to paradox and argues that readings which are attuned to paradox can better appreciate the proximity of Romanticism and post structuralism As well as their affirmation of paradox the texts of Novalis and Derrida testify to a profound respect for the Other and the close readings of selected texts reveal remarkable similarities in their thinking on literature philosophy and representation and on the intricate interrelation between language identity and desire **Reading the Modern European**
