Longman Exam Skills Proficiency Use Of English Teachers:

New Progress to Proficiency Teacher's Book Leo Jones, 2002-01-31 This teacher's book has been completely revised and updated for the December 2002 Proficiency exam specifications. It provides systematic coverage of skills and techniques for all five Proficiency papers.

Recent Advances in Corpus Linguistics Lieven Vandelanotte, Kristin Davidse, Caroline Gentens, Ditte Kimps, 2014-08-15 This book is a selection of studies presented at the 33rd International Conference of the International Computer Archive of Modern and Medieval English ICAME hosted by the University of Leuven 30 May 3 June 2012. The strictly refereed and extensively revised contributions collected here represent recent advances in corpus linguistics both in the development of specialist corpora and in ways of exploiting them for specific purposes. The first part focuses on Corpus development and corpus interrogation and features papers on the compilation of new highly specialized corpora which aim to fill gaps in historical databases and on new ways of extracting relevant patterns automatically from computerized datasets. The second part devoted to Specialist corpora presents detailed descriptive studies on grammatical patterns in World Englishes on neology and using a contrastive approach on prepositions and cohesive conjunctions. The third and final part on Second language acquisition groups together studies situated at the intersection of corpus linguistics and educational linguistics and dealing with markers of relevance and lesser relevance in lectures, deceptive cognates, the automatic annotation of native and non-native uses of demonstrative 'this' and 'that' and measuring learners' progress in speech and in writing. Each contribution in its own way reports on novel ways of getting mileage out of specialist corpora and collectively the contributions attest to the rude health of computerized corpus linguistic studies.

Assessing Language for Specific Purposes Dan Douglas, 2000 Testing language for specific purposes (LSP) refers to that branch of language testing in which the test content and test methods are derived from an analysis of a specific language use situation such as Spanish for business, Japanese for tour guides, Italian for language teachers or English for air traffic control. LSP tests are usually contrasted with general purpose language tests in which purpose is more broadly defined as in the Test of English as a Foreign Language. This book is the first to examine the issues surrounding the implementation of tests for specific purposes. It includes an in-depth discussion of the issues, an examination of the current exams and a comprehensive overview of the literature. It will be a welcome addition to any language teaching professionals' library.

Assessing Languages for Specific Purposes Dan Douglas, 2000 This book is the first to examine implementation of tests for specific purposes.

First Certificate Use of English Judy Copage, Jain Cook, 2000 Designed for students preparing for the Cambridge exams, each book in this series offers both students and teachers comprehensive support including revision sections, mini-dictionaries and appendices in the students' books and model answers, photocopiable tests and marking schemes in the teacher's books. The books can be used either as free-standing supplementary material or as a complete exam preparation series. They are designed to develop the essential language skills and sub-skills students need for each exam paper; they also

offer specific training and guidance for each part of the exams with an abundance of practice based on realistic test tasks
