confusion contradictions and raw emotions expressed by government and military officials regarding the Apaches while revealing the shameful circumstances in which they were held First removed from Arizona to Florida the prisoners were eventually relocated to Mount Vernon Barracks in Alabama where in the words of one Apache We didn't know what misery was until they dumped us in those swamps Pulmonary disease took its toll by 1894 disease had killed nearly half of the Apaches and after years of pressure from Indian rights activists and bureaucratic haggling Fort Sill in Oklahoma was chosen as a more healthful location Here they were given the opportunity to farm and here Geronimo who eventually converted to Christianity died of pneumonia in 1909 at the age of 89 still a prisoner of war In the meantime many Apache children had been removed to Carlisle Pennsylvania for education despite earlier promises that families would not be split up and most eventually lost their cultural identity Henrietta Stockel has combed public records to reconstruct this story of American shame and Native endurance Unabashedly speaking on behalf of the Apaches she has framed these documents within a readable narrative to show how exasperated public officials eager to openly demonstrate their superiority over savages who had successfully challenged the American military for years had little sympathy for the consequences of their confinement Although the Chiricahua Apaches were not alone in losing their ancestral homelands they were the only American Indians imprisoned for so long a time in an environment that continually exposed them to illnesses against which they had no immunity devastating families even more than warfare Shame and Endurance records events that ought never to be repeated and tells a story that should never be forgotten **Talks in a Library with Laurence Hutton** Laurence Hutton,1911
