The Crossroads of Space and Time Charles,Irene Nickerson,2015-02-13 Captain Bancroft couldn't believe this resort. The beaches were pristine. The rooms were comfortable. Everything was so relaxing. The only area off limits was the northern beaches and an area they called the trench. He asked a Mr Jones why. Mr Jones told him that since he was head of security He would take him out to the cliffs and show him the reason. While out there they saw a large sea bird flying over the water. That was when a large shark leaped from the water and snatched it from the air. Mr Jones pointed out that is why the northern beaches and the trench were off limits. Bancroft decided that was a good reason. The rest of the crew was just having a good time. Mrs Svedberg ran the resort like a general. The service staff seemed happy despite the fact that she seemed demanding to work for. He also was confused by the large canus that seemed to have free run of the island. Till he was told they were part of the security detail. Yet he liked what he saw. These Maxumus were good at what they did. Bancroft decided he was a lucky bear. At the very least his life would probably never be boring. He was going to be right. *Drunken Space Pirates!* Phoenix Freebird A.,2009-06-30 Running from a mutinous crew sucked through a wormhole like in a bad sci fi movie and slowly running out of booze and that's just the beginning of this non traditional story that starts off as a simple captain's log book and evolves into something more like a really warped and twisted TV show in text. Follow the Captain and crew on a series of seemingly random adventures where it's obvious it's not just the Captain who's been drinking. At some point you may ask yourself is all this just coincidence or is there something dark and annoying on the horizon. The Captain seems to have a drinking problem the problem being he never has enough to drink and people from his past keep showing up and ruining his buzz. Akki a corrupted artificial intelligence who occasionally takes over the Captain's log has his own plans mostly self serving ones because he has nothing better to do. The rest of the crew pirates hot chicks robots and a foul beaked little space penguin round out the *Drunken Space Pirates* and with all the wise cracks and shots aimed at everyone and everything its clear the alcohol flows rather freely within the D S P. Many of the off the wall characters of the D S P are walking guilty pleasures who say what they feel do what they want and just generally give it to life pop culture and the universe in general with both barrels and occasionally fish. **Operation: Space Pirates** Carolee Overlock-Roe,2009-10 *Negative Space* Gillian Linden,2025-04-25 A gem of a debut novel about a young mother navigating the instabilities of teaching parenting and marriage in the wake of the pandemic. With deadpan humor and a keen eye for the strangeness of our days *Negative Space* follows a week in the life of an English teacher at a New York private school. At home her two children increasingly restless ask constant questions about mortality and find hidden wisdom in the cartoons they watch on television. Her husband tends to his plants and offers occasional counsel between Zoom calls to Hong Kong and Australia. And at school as she navigates the currents between wealthy increasingly disconnected students and bewildered faculty she accidentally witnesses an ambiguous possibly inappropriate interaction between a teacher and a student. She feels compelled to say something but how can she be sure of what she saw. Precisely rendered and filled with sly observations about our off kilter days *Negative Space*

is a witty and resonant portrait of a woman caught between the pressures of home and work parenting and teaching what's normal and what isn't. Writing with an acute sense of dread and delight Gillian Linden has crafted a stunning debut that examines what we owe the people who depend on us in a fractured and indifferent world. *Catalog of Educational Captioned Films/videos for the Deaf*, 1993. Islands of Space John Campbell, 2011-01-24. As Earth's faster than light spaceship hung in the void between galaxies Arcot Wade Morey and Fuller could see below them like a vast shining horizon the mass of stars that formed their own island universe. Morey worked a moment with his slide rule then said We made good time. Twenty nine light years in ten seconds. Yet you had it on at only half power. *Level Design* Christopher W.
