On his way Jacobs uncovers the stories of those who have shared his fascination and discovers the secrets of a region steeped in history, science and myth. **Framing a Lost City** Amy Cox Hall, 2017-11-22. An engaging study of Machu Picchu's transformation from ruin to World Heritage site and the role a National Geographic photo feature played. *Latin American Research Review*. When Hiram Bingham, a historian from Yale University, first saw Machu Picchu in 1911, it was a ruin obscured by overgrowth whose terraces were farmed by a few families. A century later Machu Picchu is a UNESCO World Heritage site visited by more than a million tourists annually. This remarkable transformation began with the photographs that accompanied Bingham's article, which were published in National Geographic magazine, which depicted Machu Picchu as a lost city discovered. Focusing on the practices, technologies and materializations of Bingham's three expeditions to Peru in the first decade of the twentieth century, this book makes a convincing case that visualization, particularly through the camera, played a decisive role in positioning Machu Picchu as both a scientific discovery and a Peruvian heritage site. Amy Cox Hall argues that while Bingham's expeditions relied on the labor, knowledge and support of Peruvian elites, intellectuals and peasants, the practice of scientific witnessing and photography specifically converted Machu Picchu into a cultural artifact, fashioned from a distinct way of seeing. Drawing on science and technology studies, she situates letter writing, artifact collecting and photography as important expeditionary practices that helped shape the way we understand Machu Picchu today. Cox Hall also demonstrates that the photographic evidence was unstable and as images circulated worldwide, the lost city took on different meanings, especially in Peru, which came to view the site as one of national patrimony in need of protection from expeditions such as Bingham's.

Close Encounters of Empire Gilbert Michael Joseph, Catherine LeGrand, Ricardo Donato Salvatore, 1998. Essays that suggest new ways of understanding the role that US actors and agencies have played in Latin America. publisher: *Lost City of the Incas* Hiram Bingham, 2010-12-16. First published in the 1950s, this is a classic account of the discovery in 1911 of the lost city of Machu Picchu. In 1911 Hiram Bingham, a pre-historian with a love of exotic destinations, set out to Peru in search of the legendary city of Vilcabamba, capital city of the last Inca ruler, Manco Inca. With a combination of doggedness and good fortune, he stumbled on the perfectly preserved ruins of Machu Picchu, perched on a cloud-capped ledge 2000 feet above the torrent of the Urubamba River. The buildings were of white granite, exquisitely carved blocks, each higher than a man. Bingham had not, as it turned out, found Vilcabamba, but he had nevertheless made an astonishing and memorable discovery, which he describes in his bestselling book *LOST CITY OF THE INCAS*.

Trends, 1970. **The Everlasting Whisper** Jackson Gregory, 2023-08-12. The Everlasting Whisper Jackson Gregory,1922 ***Like People You See in a Dream*** Edward L. Schieffelin,Robert Crittenden,1991 This book is at once a detailed ethnographic and historical analysis of one of the final modern day experiences of first culture contact a classic example of historical geography and an extraordinary tale of exploration imperialist arrogance blood shed suffering courage and near disaster By the 1930 s the interior of the island of New Guinea protected from outside penetration over the centuries by its rugged mountains and unruly rivers remained one of the few places outsiders had never seen In early January of 1935 the Papuan colonial administration dispatched patrol officers including 40 Papuan carriers and police to explore the vast unknown country between the Strickland and Purari rivers The expedition moved inland along the river systems by steam launch and canoe until in mid February they abandoned their boats and proceeded on foot through the tropical forest and into the mountains Along the way the party encountered hitherto unsuspected populations peoples of six tribes numbering in the tens of thousands who had never before seen white men and who were still using Stone Age tools *North American Exploration* John Logan Allen,1997-01-01 The third volume of *North American Exploration* covering 1784 to 1914 charts a dramatic shift in the purpose priorities and results of the exploration of North America As the nineteenth century opened exploration was still fostered by the growth of empire but by the 1830s commercial interests came to drive most exploratory ventures particularly through the fur trade By midcentury however as imperial rivalries lessened and the fur trade declined exploration was driven by the growing scientific spirit of the age although the science was often conducted in the service of a search for railroad routes or natural resources linked to military concerns A clear transition took place as the spirit of the Enlightenment gave way to economic imperatives and to the science of the post Darwinian age and exploration passed beyond discovery and geographical definition This volume explores the resultant beginnings of an understanding of the continent and its native peoples
