A comparison of the defense acquisition systems of France, Great Britain, Germany and the United States , **The International Social Survey Programme 1984-2009** Max Haller, Roger Jowell, Tom W Smith, 2009-09-11 The social sciences rely more on the comparative method than on experimental data mainly because the latter is difficult to acquire amongst human populations The International Social Survey Programme has played a pioneering role in creating and sustaining methodologically sophisticated mass attitude surveys across the globe Starting in 1984 with five nations it now encompasses forty five nations spread over five continents each administering an identical annual survey to a random sample of their population Analyses of the data or descriptions of the methodology already appear in over 3 000 publications This book contains new contributions from three dozen eminent scholars who analyse and compare the perceptions and attitudes of citizens across all five continents nations and over time Subjects range from inequality and the role of the state ethnic national and global identities the changing relevance of religion beliefs and practices gender roles family values and work orientations household and society Some chapters focus on methodological issues others focus on substantive findings This book sets new standards for cross cultural research Great Britain and the East ... , 1917 **The UK's energy supply** Great Britain: Parliament: House of Commons: Energy and Climate Change Committee, 2011-10-25 The Government must start thinking strategically about energy security to protect the UK's energy supply against short term shocks and rising global energy prices according to a report by MPs on the Energy and Climate Change Committee Gas storage capacity needs to be increased in the UK to minimise the potential damage from supply interruptions or price spikes the report argues It reveals that the UK's current storage capacity amounts to only 14 days worth of gas supply a dangerously low level compared with France which has 87 days worth of gas storage Germany 69 and Italy 59 19 gigawatts GW of ageing electricity plant will close by 2018 and the UK will become increasingly reliant on energy imports as North Sea oil and gas reserves decline The report concludes that new electricity generation currently being built or planned will fill this gap But it urges the Government to ensure security of supply by delivering on its energy efficiency targets rolling out smart meters that can balance demand and maintaining a diverse energy mix *Hansard's Parliamentary Debates* Great Britain. Department of Health Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2007-04-17 The National Programme for IT in the NHS the Programme was set up to utilise information technology to help provide high quality services to patients using centrally managed procurement to provide impetus to the uptake of IT and to secure economies of scale Expenditure on the Programme is expected to be 12 4 billion over ten years to 2013 14 Following a National Audit Office report HC 1173 session 2005 06 ISBN 9780102938289 the Committee examined progress made by the Department of Health in implementing the Programme particularly the current status of the shared electronic patient clinical record the costs of the Programme the local management and implementation of the systems within the NHS the extent to

which clinicians were involved in developing the systems the management of suppliers and patient confidentiality Four overall conclusions are drawn 1 the piloting and deployment of the shared electronic patient clinical record is already running two years behind schedule and no firm implementation date exists 2 the suppliers to the Programme are clearly struggling to deliver one of the largest Accenture has now withdrawn and the Department is unlikely to complete the Programme anywhere near its original schedule 3 the Department has much still to do to win hearts and minds in the NHS especially among clinicians and needs to show that it can deliver on its promises supply solutions that are fit for purpose learn from its mistakes and respond constructively to feedback from users in the NHS 4 there is still much uncertainty about the costs of the Programme for the local NHS and the value of the benefits it should achieve *American Machinist* ,1912
