filled private notebooks with her confusion humor and anger toward the strange world of emergency street medicine As her career on the ambulance progressed she found herself taking notes on scraps of paper the backs of gloves and in the margins of EKG printouts She listened to her patients stories left food out for their pets and turned off the stove under their oxtail stews Once she read half a poem left in a dead woman s typewriter She learned about the history that brought ambulances into their current role as the caretakers of society s forgotten and spoke to her colleagues about their own experiences and perspectives Those reflections are collected here in a series of raw powerful essays about the state modern healthcare Sokol s life as a paramedic took her to three different counties the casinos and trailer parks of the Nevada desert the cozy beach town of Santa Cruz and eventually the crowded tenements of San Francisco s Tenderloin district There are no clear villains or heroes in Sokol s world only a group of patients and medics who are doing their best in a deeply broken system Combining impactful research compassionate reflections on her most memorable patients and the strong voices of her fellow paramedics Sokol takes readers deep into the everyday reality of 911 first responders offering insight empathy and a reminder of both the power and limitations of care
