Handbook of Career Development Gideon Arulmani, Anuradha J. Bakshi, Frederick T. L. Leong, A. G. Watts, 2014-02-08 This book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures Yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous An examination of the literature pertaining to career development counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by Western epistemologies some of the largest workforces in the world are in the developing world Career guidance is rapidly emerging as a strongly felt need in these contexts If more relevant models are to be developed frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development This does not mean that existing ideas are to be discarded Instead an integrative approach that blends universal principles with particular needs could offer a framework for theorizing research and practice that has wider relevance The central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and economically relevant to contemporary challenges and issues This book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling

Skilling India S. Nayana Tara, N.S. Sanath Kumar, 2018-09-10 The book focuses on the status of vocational education programs challenges of achieving quality and attaining competitive excellence in a globalized socioeconomic order and the role of government and industry in achieving these avowed goals India's transition to a knowledge based economy requires a new generation of educated and skilled people Its competitive edge will be determined by its people's ability to create share and use knowledge effectively A knowledge economy requires India to develop workers knowledge workers and knowledge technologists who are flexible and analytical and can be the driving force for innovation and growth Developing skilled workers enhances the efficiency and flexibility of the labor market skills bottlenecks are reduced skilled workers are more easily absorbed into the economy and their job mobility is improved In this light an effort is made in this book to describe and analyze governmental skill development initiatives in India The book also dwells on the need to revive traditional family centric vocations pursued in the rural communities especially those dying village based vocations that provide livelihood options to a multitude of socially disadvantaged artisans and integrate them

into the fabric of skill development initiatives in place The book provides a systematic understanding of the processes of skill formation and provides several pathways for enhancing entrepreneurial skills in a business ecosystem with a huge knowledge capital gained through skill development initiatives Toward this end the book seeks to contribute toward understanding the structures and processes of governance and initiatives for enhancing the quality of skilling programs The book also dwells on various opportunities and challenges of augmenting a multitude of skilled workforces made available through various skilling initiatives and programs Resources in Education ,2001-04

Vocational Education and Training Institutions

Vladimir Gasskov,2006 Effective public governance and management continue to be key to the vocational education and training VET sector This Handbook and CD ROM suggests that the VET institutions responsiveness to market demand and their ability to operate flexibly and cost efficiently are strongly determined by the degree of their management financial and academic autonomy as well as by the competence of their staff Based on experiences in Australia New Zealand and the United Kingdom the Handbook is not country specific but provides general approaches to the management of VET institutions It is accompanied by a CD ROM that provides summaries of national management practices in the VET sector and of national policies reports and legal documents as well as real life management instruments applied by VET institutions The Handbook consists of 11 modules with 43 learning units while the CD ROM provides access to more than 400 documents The Handbook and CD ROM are intended as self learning materials for VET managers as resource material for management development programmes in the VET sector and as an outline for performance review of VET institutions
