Southern Africa Bibliography Reuben Musiker, Naomi Musiker, 1996 On April 27 1994 a new era in the history of Southern Africa began when South Africa became a democratic country governed by Black majority rule

In the aftermath of these momentous changes Scarecrow Press introduces the Southern Africa Bibliography It is a select bibliography that lists the significant books and monographs on Angola Botswana Lesotho Malawi Namibia Mozambique South Africa Swaziland Zambia and Zimbabwe published since 1945 Coverage of a broad range of subjects including art culture economy history politics religion society and important persons places events and movements The work is arranged by subject and contains detailed author title and subject indexes *Mandela's Ego* Lewis Nkosi,2006 A brilliantly witty depiction of the seductive power and crippling consequences of hero worship by a skilful and beguiling writer A Discourse on African Philosophy Christian B. N. Gade,2017-04-18 Many have argued that ubuntu was a formative influence on the post apartheid Truth and Reconciliation Commission TRC South Africa s famous transitional justice mechanism A Discourse on African Philosophy A New Perspective on Ubuntu and Transitional Justice in South Africa challenges and contextualizes this view in a way that not only provides new findings and reflections on ubuntu and the TRC but also contributes to the field of African philosophy One of Christian B N Gade s key findings founded on qualitative interviews in South Africa is that some former TRC commissioners and committee members question the importance of ubuntu in the TRC process Another is that there are several differing and historically developing interpretations of ubuntu some of which have evident political implications and reflect non factual and creative uses of history Thus ubuntu is not a shared cultural heritage in the ethnophilosophical sense of a static property characterizing a group In fact throughout this book Gade argues that the ethnophilosophical approach to African philosophy as a static group property is highly problematic Gade s research presents an alternative collective discourse on African philosophy collective in the sense that it does not focus on any single individual in particular that takes differences historical developments and social contexts seriously This book will be of interest to scholars in African philosophy transitional justice politics and cultural heritage and law in South Africa
