Between Man and God Martin Sicker, 2001-06-30 Sicker presents a personal attempt to come to grips with the awesome question Where was God at Auschwitz and with it some of the related central issues of Jewish thought and belief There is a tendency among many writers of contemporary work of theology to argue that the very fact of the Holocaust invalidates traditional Jewish theory and that its long held ideas about God must therefore be revised radically However Jewish thinkers have long asked the equivalent of this troubling question albeit in reference to other places and times in Israel s history and have offered possible answers just as we do today The big difference between then and now is not the enormity of the Holocaust but the readiness of earlier thinkers to search for meaning without almost cavalierly discarding traditionally cherished ideas and beliefs The author argues that modern advocates of radical theological revision actually have little to add to our understanding of the ways of God and even less to a meaningful Judaic perspective on the universe and the relationship between man and God A second concern is the contemporary argument that because there is no universally accepted theology of Judaism one is not bound by any particular conception of God whether of biblical or rabbinic origin Jewish theology has thus come to be viewed essentially as an equal opportunity field of intellectual endeavor an approach Sicker considers fundamentally and fatally flawed Traditional non dogmatic thought does not require radical revision What is required is a sympathetic understanding of

the theological assumptions and ideas of the past coupled with a sincere and respectful attempt to reformulate them in terms more attuned to the modern temper

Aspects of Jewish Metarational Thought Martin Sicker, 2005 Judaism has always had adherents that driven by both awe and love of God strove to penetrate the mystery of divine wisdom and grasp what the philosopher deemed to be beyond the reach of man's rational faculty as well as to explore other mysteries that seem to leap out from the pages of Scripture These metarational leaps of intellect and imagination generally fit into the categories of the exoteric and the esoteric referring to teachings traditionally considered suitable for public instruction and those deemed inappropriate for such purpose The exoteric includes those attempts at intellectually and spiritually bridging the gap between God and man that one finds strewn throughout the pages of the classical literature of Judaism The esoteric includes those speculations and practices that have been more or less systematized and formulated and presented as mystical doctrines that have been characterized since the Middle Ages as Kabbalah The opening chapters of Aspects of Jewish Metarational Thought consider the question of the relationship between finite man and the unknowable God and how the divine human communication essential to that relationship takes place Other chapters consider the purpose behind human existence and the critical aspects of the biblical account of the creation issues relating to the idea of a visionary ascent to the celestial realm the influence of metarational considerations on normative Jewish religious practice and the special attributes believed to inhere in the Hebrew language and the role that these have played in metarational biblical interpretation from antiquity to the present
