Man's Religious Quest Whitfield Foy,1977 *The Religious Quest* Whitfield Foy,1988 A Student's Guide to AS Religious Studies for the AQA Specification Kate Brown,Ting Morris, *Papers in Honour of Professor Mary Boyce* I Harold Walter Bailey,2024-07-22 **The God/Man/World Triangle** R. Crawford,1997-10-06 Why is there a world Does it reflect the presence of God in any way Did the world spontaneously come into existence or is there a creator How will it end Does God Exist Do religions give a coherent view of His existence and nature Can we enter into relation with Him Robert Crawford tries to answer these and other questions by arguing that religion and science complement one another and while they use different sources and methods insights can be gleaned from both concerning our nature the world and God Major attention is given to Christianity because modern science arose in that context but the discussion includes the teachings of five other religions in the hope that we can also learn from them Major World Religions Lloyd V. J. Ridgeon,2003 This book focuses upon those religions that continue to demand the attention of the Western world *Rediscovering Righteousness in Romans* David J. Southall,2008 Why does the Apostle Paul personify righteousness as slave master and athlete in Romans 6 and 9 David J Southall explores Pauline personification as a trope of character invention in which righteousness becomes an equivalent term for Christ **BOOK JACKET** Ninian Smart on World Religions John J. Shepherd,2017-11-30 Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the late 1960s His pioneering views on education in religion proved hugely influential at all levels from primary schools to academic teaching and research An unending string of publications many of them accessible to the general public sustained a reputation that became worldwide Here for the first time a selection of Ninian Smart s wide ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century The editor John Shepherd was Principal Lecturer in Religion and Philosophy at the University of Cumbria He first met Smart as a postgraduate student and recently helped establish the Ninian Smart Archive at the University of Lancaster Beyond the New Morality Germain Grisez,Russell Shaw,1988-09-30 First published in 1974 with a second revised edition in 1980 Beyond the New Morality third edition retains the best elements of the earlier versions including the authors clear straightforward presentation and use of nontechnical language Although the basic approach content and organization remain substantially the same the new edition does develop and amend some aspects of the theory For example the community dimension of morality is brought out more clearly and the first principle of morality is now formulated more accurately in terms of willing in line with integral human fulfillment We are proposing an ethics But what is ethics As we use the word it means a philosophical study of morality of the foundations on which morality is based and of the practical implications of a systematic moral outlook We believe ethics must start by clarifying the fundamental notions of freedom action and community Then it can go on to examine the question What is the ultimate distinction between moral good and

moral evil between action which is right and action which is wrong An answer becomes useful in practice however only after one has worked out a satisfactory way of thinking through concrete moral issues Should I do this or that Thus we next turn to the problem of establishing basic moral principles Finally once one is in a position to take a reasoned view of moral issues it is possible to ask and try to answer the question To what extent can I close the gap in my life and in society between the way I think things ought to be and the way they are History studies human actions but it looks at particular actions which have actually taken place ethics is concerned with human action in general or with possible kinds of actions Psychology and the social sciences also have somewhat the same subject matter as ethics but they are mainly concerned with how human beings actually do act and societies actually do work ethics concentrates on how persons ought to act and societies ought to be formed and reformed

Light Against Darkness Armin Lange, Eric M. Meyers, Randall Styers, 2010-11-17 Light Against Darkness is comprised

of articles that put on display the power and pervasiveness of dualistic thought Dualism has proved a potent cultural tool for clarifying and ordering reality Particularly in times of social stress and psychological insecurity it can offer a valuable conceptual grid that provides orientation to the world and a clear sense of identity At the same time though there are important questions to be asked about the social effects of binary thinking As history amply illustrates dualistic notions can readily be deployed to legitimate cultural demonization and to rationalize violence At a deeper level a dualist worldview can also obscure the possibilities to be found in multiplicity The articles in this volume treat Dualism across a wide historical spectrum and from multiple methodological perspectives The studies are organized around the religious and cultural contexts of Ancient Judaism and they include contributions from leading voices on ancient Persia Israel Greece and Egypt Experts on modern religious and philosophical thought not only lend context to concepts applied to the ancient world but engage recent European and American experiments in binary thought All of the studies contribute to a richer and more complete portrait of dualism in ancient Judaism

Understanding World Religions Irving Hexham, 2011-03-22 Globalization and high speed communication put twenty first century people in contact with adherents to a wide variety of world religions but usually valuable knowledge of these other traditions is limited at best On the one hand religious stereotypes abound hampering a serious exploration of unfamiliar philosophies and practices On the other hand the popular idea that all religions lead to the same God or the same moral life fails to account for the distinctive origins and radically different teachings found across the world s many religions Understanding World Religions presents religion as a complex and intriguing matrix of history philosophy culture beliefs and practices Hexham believes that a certain degree of objectivity and critique is inherent in the study of religion and he guides readers in responsible ways of carrying this out Of particular importance is Hexham s decision to explore African religions which have frequently been absent from major religion texts He surveys these in addition to varieties of Hinduism Buddhism Judaism Christianity and Islam
