In Sickness and In Power David Owen, 2022-03-17 *In Sickness and In Power* looks at illness in heads of government business and military leaders between 1901 and 2007 It considers how illness and therapy both physical and mental affect the decision making of heads of government engendering folly in the sense of foolishness stupidity or rashness Owen is particularly interested in leaders who were not ill in the conventional sense whose cognitive faculties functioned well but who developed a hubristic syndrome that powerfully affected their performance and their actions As we learn here they suffer a loss of capacity and become excessively self confident and contemptuous of advice that runs counter to what they believe or sometimes of any advice at all Long fascinated with the inter relationship between politics and medicine David Owen uses his deep knowledge of both to look at sickness in political leaders Owen expertly scrutinises such diverse political personalities as Sir Anthony Eden at the time of Suez in 1956 John F Kennedy and the Bay of Pigs fiasco in 1961 the last Shah of Iran and President Mitterrand of France who suffered from prostate cancer The author also devotes a chapter to the hubristic behaviour and relationship between President Bush and Prime Minister Blair The book ends by outlining some of the safeguards that society needs to address as a consequence of illness in heads of government Revised and Updated Edition for 2016 including a new chapter entitled Hubris Syndrome in the Military

Mantua Humanistic Studies. Volume I Erika Notti, Edoardo Scarpanti, 2018-03-22 The present book is intended to represent the first volume of a long series which will be devoted to collect studies proceedings and papers in the field of Humanities The title Mantua Humanistic Studies reminds us to a historical town in northern Italy Mantua that had been for a long time the capital of one of the most powerful and culturally influencing dynasties of the Renaissance the Gonzaga family Mantua has an extraordinary richness in terms of history arts and tradition of studies and is now one of the main Unesco Heritage sites Among the artists who have left their masterworks in the city we can find Pisanello Andrea Mantegna Leon Battista Alberti Giulio Romano Rubens Titian and many others Even if in the time of the Gonzagas the city had a strong history of humanistic studies mainly established by the great teacher Vittorino Da Feltre during the following centuries Mantua gradually lost great part of its cultural influence especially after the end of the leading dynasty at the beginning of the 18th Century Maybe the only real exception was the renowned Accademia Nazionale Virgiliana Nevertheless in very recent years some Italian Academic Institutions and Universities have rediscovered the cultural importance of the town and they moved here with some of their Bachelor and Master degrees the Politecnico of Milano the University of Verona and in 2018 the University of Modena and Reggio Emilia More and more students are moving into our old city every year and the future could really be bright in the terms of culture teaching and research Mantua Humanistic Studies would like to be a small but maybe not useless contribution to what could be a second Renaissance for the capital of the Gonzagas offered by a small but active Scientific Publishing House which was born and still

Phillips, 2000 Challenging conventional wisdom about German dominance in the new Europe this study presents a new approach to the question of power and influence after the Cold War Inspired by the debate over German hegemony and drawing on intensive fieldwork Ann L Phillips develops two original cases of German relations with East Central Europe to test competing arguments As she convincingly demonstrates the politics of reconciliation and the activities of German party affiliated foundations illustrate German engagement in the region in its dual faces restraint and projection The author uses the less developed literature on reciprocal influences of domestic politics and the international environment to frame her analysis These two cases provide evidence not only of the intersection of domestic politics and international relations but of when and how one trumps the other Contributing to the theoretical debate Phillips argues that this interplay explains the divergent trajectories bilateral relations have taken since 1990 in ways that more traditional neo realist or liberal approaches could not The author s fresh perspective and new evidence demonstrate that East Central European states play a much greater role in the influence equation than they did in the past **How Power Corrupts** R. Blaug, 2010-04-09 This is an interdisciplinary study of the mechanisms by which power corrupts It incorporates political theory organizational studies and cognitive science In particular it introduces advances in the field of cognitive psychology which it uses to examine the effects of institutionalized power on how we think **Margaret Thatcher, a Victorian Woman in Power ?** Anthony Dexmier, 2010 **The Political Economy of Media and Power** Jeffery Klaehn, 2010 The Political Economy of Media and Power is a highly interdisciplinary and innovative edited collection bringing together a diverse range of chapters that address some of the most important issues of our times Contributors cut through media spectacle and make visible the intersections between mass media and the politics of power in the contemporary social world The book is intended to foster critical pedagogy chapters explore ways in which media connect with a broad range of topics and issues including globalization war and terrorism foreign affairs
