Sodium/Potassium Pump

The Na⁺/K⁺ pump also known as "Na⁺/K⁺ ATPase" actively pumps sodium and potassium using ATP as the source of energy. This pump actively moves ions from area of low concentration to an area of high concentration against the concentration gradient. During this exchange, 3 sodium ions are pumped out of the cell and 2 potassium ions are pumped into the cell. This establishes a higher extracellular sodium concentration and a higher intracellular concentration of potassium. The separation of ions and their charge generates a negative intracellular electrical membrane potential due to the high concentration of potassium and low concentration of sodium. The pump requires ATP to function and if ATP is not available, then the pump will cease working. A study done using an ATP inhibitor (DNP) tracked radioactive sodium efflux and showed the result of an inactivated Na⁺/K⁺ pump. The pump inactivity caused net sodium efflux to decrease over time since the pump stopped exchanging Na⁺ ions with K⁺ ions up concentration gradient.

Similarly, red blood cells (and many other cells) need pumps to maintain osmotic balance and cell volume. If the pumps do not work properly, then the concentration of ions in the cells will increase creating an influx of water to balance to try to maintain osmosis balance, eventually leading to lysing of the cells. The pumps are a defensive measure to move ions against their concentration gradient to prevent accumulation that will alter cell functioning.

This is good, but do you want also to give us the simplified form, and explain the assumptions to simplify it?

The pump belongs with the concentration table, before we dealt with equilibrium potentials. Try to follow class sequence more exactly.

🔍 📄 ✕

"lower intracellular" would be better, since the outside solution is huge and not really affected by the pump.

Godly Learning John Morgan,1988-03-31 Godly Learning attempts to establish the relationship which Puritans worked out between faith and reason in the eighty years before the Civil War This was a period of rapid expansion of educational facilities of a clash between humanist values of the Renaissance and the fideism of the Reformation and of confrontations between traditionalist primarily Aristotelian approaches to knowledge and the more experimental path signalled by Bacon

Taking an existential approach to the question of meaning Puritans sought their solution in the development of a covenant theology based on a life of active faith They argued vehemently that natural reason was incapable of finding the path to salvation and only faith could regenerate reason to its proper capabilities At the same time Puritans emphasised the value of learning for comprehension of Scripture and preparation of sermons Starting with a fresh approach to the question of defining Puritans Godly Learning proceeds to delineate the infrequently studied puritan mentalit which informed the better known public political and ecclesiological positions Not since the work of Perry Miller has there been such a thorough attempt to comprehend the Puritan view of reason and the implications of that view The Ages of the World (1811) F. W. J. Schelling,2019-02-14 In 1810 after establishing a reputation as Europe s most prolific philosopher F W J Schelling embarked on his most ambitious project The Ages of the World For over a decade he produced multiple drafts of the work before finally conceding its failure a failure in which Heidegger Jaspers Voegelin and many others have discerned a pivotal moment in the history of philosophy Slavoj i ek calls this text the vanishing mediator the project that even while withheld and concealed from view connects the epoch of classical metaphysics that stretches from Plato to Hegel with the post metaphysical thinking that began with Marx and Kierkegaard Although drafts of the second and third versions from 1813 and 1815 have long been available in English this translation by Joseph P Lawrence is the first of the initial 1811 text In his introductory essay Lawrence argues for the importance of this first version of the work as the one that reveals the full sweep of Schelling s intended project and he explains its significance for concerns in modern science history and religion The Great Little College Stephen Hickey,2017-06-01 Based on the recollections of Corpus alumni The Great Little College gives a students eye view of life in this community since 1945 It captures the highs and the lows the surprises and absurdities of an intense and formative phase of young lives Although seemingly timeless it gives a vivid intimate insight into how Corpus life changed with the arrival of women These personal accounts provide a window into life at an Oxford College and highlight how the University has evolved and adapted over the last 70 years As a top global university Oxford has never been more important Although the smallest of its constituent colleges Corpus Christi has long been one of the most distinguished Founded in 1517 as a hive of scholarly activity and admired by Erasmus its more recent alumni range from John Keble to Isaiah Berlin from Vikram Seth to David and Ed Miliband Its intimate character and distinguished record have fostered a unique community special even amongst its peers The whole place felt like a secret garden Nick Witney What a privilege as well as monumental pleasure to have been there One never really leaves the place Ian Wylie **Signs and Wonders in Britain's Age of Revolution** Abigail Hartman,Timothy G. Pastoral Care and Community in Late Medieval Germany Deeana Copeland Klepper, 2022-12-15 *Pastoral Care and Community in Late Medieval Germany* explores how local religious culture was constructed in medieval European Christian society through close study of a set of neglected late fourteenth century manuscripts The Mirror of Priests is a pastoral work written by Albert an Augustinian canon from the Bavarian market town of Diessen to guide local priests in their work with parishioners Multiple versions of the text in Albert s own hand survive and by comparing them Deeana Copeland Klepper shows how ostensibly universal religious ideals and laws were adapted interpreted and repurposed by those given responsibility to implement them thereby crafting distinctive local expressions of Christianity The vision of Christian community that emerges from Albert s pastoral guide is one in which the messiness of ordinary life is evident Albert s imagined parish was marked out by geographic and legal boundaries property and jurisdictional rights tithes and sacramental responsibility as well as symbolic realities By situating the Mirror of Priests within Albert s physical and conceptual spaces Klepper affirms the centrality of the parish and its community for those living under the rubric of Christianity especially outside of large cities Pivoting between the materiality of texts and the sociocultural contexts of an overlooked manuscript tradition *Pastoral Care and Community in Late Medieval Germany* offers fresh insights into the role of parish priests the pastoral manual genre and late medieval religious life
