Marie Steiner-von Sivers: Fellow Worker with Rudolf Steiner Marie Savitch, 1967

Marie Steiner Hans Peter Van Manen, 1995 Marie Steiner the wife of Rudolf Steiner and one of his closest colleagues made a great contribution to the development of anthroposophy particularly in her tireless work on the renewal of the performing arts eurythmy speech and drama and the editing and publishing of Rudolf Steiner's literary estate However as Hans Peter van Manen argues the anthroposophical movement is like a listing ship in that as time has gone on far more has come to be known about Ita Wegman in the karmic sense than about Marie Steiner In publishing this reworked lecture van Manen goes some way toward redressing the imbalance presenting the results of his own carefully considered thoughts on the subject of Marie Steiner's karmic past In doing so he links her to a well known individuality connected with Aristotle in ancient Greece

Marie Steiner-Von Sivers Marie Savitch,1967 A sensitive deeply moving biography of Marie Steiner von Sivers and a splendid tribute to her heroic labors in the development of the art of speech eurythmy and drama and to her work side by side with Rudolf Steiner in building the anthroposophical movement

The Creative Power of Anthroposophical Christology Sergei O. Prokofieff,Peter Selg,2011-10 18 Introductory essays written 1884 1897 CW 1 The holistic paradigm Gaia deep ecology and new alchemy all have a hidden ancestor Johann Wolfgang von Goethe 1749 1832 At the youthful age of twenty one Steiner was chosen to edit Goethe s scientific writings for the principle Goethe edition of his time Goethe s literary genius was universally acknowledged it was Steiner s task to understand and comment on Goethe s scientific achievements Steiner recognized the significance of Goethe s work with nature and his epistemology and here began Steiner s own training in epistemology and spiritual science This collection of Steiner s introductions to Goethe s works re visions the meaning of knowledge and how we attain it Goethe had discovered how thinking could be applied to organic nature and that this experience requires not just rational concepts but a whole new way of perceiving In an age when science and technology have been linked to great catastrophes many are looking for new ways to interact with nature With a fundamental

declaration of the interpenetration of our consciousness and the world around us Steiner shows how Goethe's approach points the way to a more compassionate and intimate involvement with nature Nature's Open Secret is a translation of Goethe's Naturwissenschaftliche Schriften Einleitungen 1884-1897 Previous translations were titled Goethe the Scientist and Goethean Science GA 1 **Reminiscences of Rudolf Steiner and Work on the First Goetheanum** Assya

Turgeniev, 2003 Assya Turgeniev was a Russian artist and one of Rudolf Steiner's most important co-workers best known for her engraving work on the colored windows of the first Goetheanum building in Dornach Switzerland In these unique reminiscences she provides eye witness reports of the burning of the first Goetheanum the time surrounding the death of Rudolf Steiner the early performances of his Mystery Plays Steiner's lecturing and travels abroad the artistic work on the Goetheanum the carving of the Group statue and the Christmas plays and Faust She also describes the development of eurhythmy and recounts her memories of Marie Steiner Edith Maryon and others Turgeniev initially set out to write a complete account of the period during which Anthroposophy was founded and developed but illness prevented her from doing so Nevertheless the fragment which constitutes this book is one of the most valuable accounts available **Kindling the Word** Rahel Kern, Brien Masters, 2012 From the moment that Marie von Sivers met Rudolf Steiner in 1902 their relationship became key to the development of Anthroposophy Marie Steiner's immense contribution is well known in the fields of eurhythmy speech and the arts as well as in her management and publication of Steiner's literary estate indeed she assisted in almost every aspect of Rudolf Steiner's work So why has she been so neglected by the anthroposophic movement Driven by this central question the authors of this penetrating study concluded that the karma and mission of Marie Steiner von Sivers is vitally important to the present and future spiritual and cultural development of the West They evaluate not only Marie's twenty-three year partnership with Rudolf Steiner but also her three previous incarnations in the ancient Orphic Mysteries as the Neoplatonist Hypatia and as Albertus Magnus The lives, acts, cultural legacies and thought of these various personalities are addressed through a series of lucid essays interspersed with studies on the missions of both Rudolf and Marie Steiner Supplementing these are short extracts from literature that reverberate with the word helping to reveal the intimately intertwined karmic missions of Marie Steiner von Sivers and Rudolf Steiner her work companion and soul partner

Eurhythmy, Its Birth and Development Rudolf Steiner, 2019-10-23 This gave my mother the opportunity of mentioning to Dr Steiner an idea Could one affect the physical body in a healing strengthening and regulating way through certain rhythmical movements of the etheric body which after all was the centre of all that was rhythmical as well as of health and illness Dr Steiner not only enthusiastically affirmed this possibility but spontaneously declared himself ready to give the necessary directions which I could then work out with my mother's help Lory Maier Smits Alongside original material by Rudolf and Marie Steiner this volume features unique first hand accounts of the birth of the art of eurhythmy by a number of its early students and practitioners The practical and artistic stages of its development are chronicled in detail alongside

reports from the first public performance onwards Rudolf Steiner offers inspiration to the original eurythmists to make their own discoveries to perceive and fashion in movement their creative inner voice The artistic principles are established for later development and elaboration to reveal and foster human creativity in many poetic and musical contexts Through the text links between eurythmy and temple dances that accompanied ancient initiations gradually emerge The impulse to dance is rediscovered as inherent in the lost Word or the primordial root language still available in genetic etymology the sounds of speech used in all languages Music eurythmy we learn did not start from dancing but from the archetypal structure of the musical system Consequently we can witness directly how an eloquent performing art can properly develop when technique and inspiration meet The text is supported by extensive supplementary material including eurythmy forms a chronological survey notes and indexes *TWIN ROADS TO THE NEW MILLENIUM* Hans Peter van Manen, 2014-06-03 First published in the run up to the new millennium van Manen's seminal study remains a unique and important source for understanding the spiritual and karmic background to the Anthroposophical Movement and Society as founded around the work of the twentieth century seer and scientist Rudolf Steiner In his lectures on karma given in 1924 Steiner spoke of the principal Aristotelian and Platonic traditions and the movements based on their thinking Van Manen studies the streams of destiny connected to these groups and elaborates upon Steiner's presentations also tackling the apparent contradictions in the Karmic Relationships lecture series The author discusses the background to these groupings of destiny beginning with the cosmic Michael School in the life before birth He throws light on many different esoteric aspects connected to anthroposophy including the archetypal representations of thinking arising from the Middle Ages the Arthurian and Grail movements the mystery of Old and Young souls the individuals identified as Seekers for Christ and Servants of Michael and the Shepherds and Kings We are led to the point at which the two principal groups of souls incarnate and meet together on earth for the first time ever an event which is to take place within the contemporary anthroposophical movement In an inspiring conclusion the author presents his thoughts on a great Whitsun happening at the end of the twentieth century and expounds on the tasks of the new millennium and the future of anthroposophy *May Human Beings Hear It!* Sergei O. Prokofieff, 2014-03-12 During the Christmas period of 1923-4 Rudolf Steiner refounded the Anthroposophical Society at its headquarters in Dornach Switzerland This important event which has come to be known as the Christmas Conference can be studied on many levels and its many mysteries have been central to Sergei O Prokofieff's anthroposophical research over the years His beginning point has been an enduring question What did Rudolf Steiner mean when he called the Christmas Conference the start of a World Turning point of Time In this far reaching work the author working from several different viewpoints guides the reader towards an answer Prokofieff suggests that the impulse of the Christmas Conference can only be reenlivened today through conscious action by individuals to experience its spiritual essence Rather than offering dogmatic conclusions he opens up paths of approaching this goal by throwing light on different aspects of the Conference

and what lies at its heart the Foundation Stone and its Meditation In particular Prokofieff explores three key perspectives the connection of the Christmas Conference with humanity's evolution the inner relationship of each individual anthroposophist to the Christmas Conference and the significance of the Conference to Rudolf Steiner himself Although this is major work of some length the individual chapters of *May Human Beings Hear It* are complete in themselves and can therefore be studied independently of each other

UNDERSTANDING SOCIETY Rudolf Steiner, 2017-11-27 In the uncertainty following the end of the First World War Rudolf Steiner perceived a unique opportunity to establish a healthy social and political constitution He began lecturing throughout post war Germany often to large audiences about his social ideas Here speaking to a more intimate grouping at the Goetheanum in Dornach Switzerland Steiner seeks to deepen the themes of social threefolding showing specifically how new social thinking is integral to anthroposophy Steiner speaks of the superficiality of the materialistic view of history originating with the economic shift amongst the population at the time of the Reformation Back in Egyptian Chaldean times initiated ruled out of spiritual impulses Later in the Greco Roman period priests had power over their congregations Today homo economicus or economic man has become the dominant idea with the capitalist and the banker taking control But the healing of social relationships can only come about through different modes of thought the life of spirit must be separated not only from politics but also from economics True social understanding allows for comprehension of karma the appreciation of each person's individual destiny In parallel says Steiner we should work towards a global consciousness as true social ideas are founded on people feeling themselves to be citizens of the world In an important corollary Steiner studies the incarnations of three significant spiritual beings in human evolution Lucifer Christ and Ahriman Lucifer incarnated in the third pre Christian millennium Christ incarnated at the dawn of a new age whilst an incarnation of Ahriman in the West is immanent Ahriman is preparing this incarnation by insidiously promoting various ideas for example that economic security is sufficient for healthy public life A new wisdom must be achieved out of free human will says Steiner or else we will succumb to Ahriman

OUR CONNECTION WITH THE ELEMENTAL WORLD Rudolf Steiner, 2016-11-14 The heart of this volume comprises Rudolf Steiner's commentary on the elemental forces that are responsible for our earthly nature as human beings forces that influence us through our membership of a national or geographical group When such elemental forces are not recognised and understood he states they cause conflict and chaos However Steiner indicates an important accompanying task that calls upon each human being to develop individuality emancipating ourselves from the earthly influences underlying national and racial groups These great themes are framed by Rudolf Steiner's pioneering research into the two major Northern folk poems the Kalevala and The Dream Song of Olaf steson The former tells of the elemental spirits who created the conditions for our earthly incarnation whereas the Dream Song has to do with the drama of exarnation the journey of the human soul after death Linking these vast motifs is Steiner's unique description of the mission and tasks of the Russian people and the contrast of their destiny to the North American

people who he says are dominating the Earth for a brief period of increasing splendour Steiner explains how elemental beings responsible for the balance of land and sea have created conditions where various peoples are enabled to develop their gifts and fulfil their destinies Thus he speaks of Finland as the ancient conscience of Europe Russia as the future bearer of the Christ imbued Spirit Self and the differing but complementary environments of Germany and Britain Strikingly he states that no souls on Earth love one another more than those living in Central Europe and those living in the British Isles Rudolf Steiner also speaks of the necessary work of luciferic and ahrimanic beings that collaborate to enable the solid spatial forms of our physical bodies Likewise they influence our etheric and astral bodies facilitating thinking feeling and will to be imbued with life and consciousness

Dying Earth and Living Cosmos Rudolf Steiner, 2015-08-19 These authoritative lectures delivered during a period of deep crisis and conflict in world history present a comprehensive spiritual teaching for contemporary humanity Despite the raging world war Rudolf Steiner was still actively touring Central Europe whilst simultaneously completing work on his architectural masterpiece the first Goetheanum in neutral Switzerland The building of the Goetheanum undertaken by a community of people from seventeen nations at war forms a thematic backdrop to the lectures In speaking of the walls in the new building for example Rudolf Steiner describes how their forms are not confining but rather express an openness to the surrounding cosmos Likewise the carved motifs on the architraves of the wooden pillars are not fixed symbols but are alive and continually metamorphosing These observations are reflected in Steiner's broader discussions He speaks of extending and deepening our connection with the world and the cosmos going beyond our usual narrow limits and definitions to engage in community with the realities of existence We can do this for example with the so called dead who find it difficult to relate to sense bound thinking Rudolf Steiner explains how we can connect with them greatly enriching our lives and making an enormous difference to their souls The distinction between fixed symbols and living motifs takes us to the core of anthroposophy striving never to rest in inert forms of thought In the field of education Steiner thus warns about external measuring of pupils and linear models of cognitive learning Throughout the three lecture courses included here which together form a kind of compendium of anthroposophy at the time Steiner touches upon a wealth of absorbing themes including the discovery of America the contrast between East and West the qualities of European folk souls Valentin Andreae's Chymical Wedding and Darwinism Regardless of his topic however Steiner consistently makes the urgent appeal that we grasp reality looking further than abstract schemes of all kinds such as social and political programmes to participate in the cosmos as conscious and fully human co creators

Life of the Human Soul Rudolf Steiner, 2016-11-14 How are we connected to the world around us This question says Rudolf Steiner is one that lives subliminally drawing us into the depths of the psyche There our candle of consciousness tends to flicker and go out But spiritual schooling can relight it so that we learn to perceive realms of our being beyond the restricted self Whilst Steiner was undertaking major lecture tours of Germany and England he took time to address his followers at the world centre of

anthroposophy in Dornach Switzerland He speaks here on three major topics The Life of the Human Soul Spiritual Striving in Relation to Earth's Evolution and The Contrast Between East and West The common theme however is our mutual responsibility for what the human being and the world will eventually become which according to Steiner is far from a foregone conclusion Even the way we think can change and affect the future the degree for example to which we concentrate our picturing in meditation infusing head thinking with warmth of heart Rudolf Steiner reveals a hugely complex picture of interrelationships between humanity and the cosmos Our head heart lungs and limbs all reveal subtly different qualities of connection with the invisible realities that continue to sustain us Our eyes for instance only gradually evolved into organs of sight and were once vital organs as our lungs are now The lungs in turn will similarly evolve to provide us with another form of perception As is usually the case Steiner addresses a wide variety of topics in addition to those above Included in this volume are thoughts on the significance of the cinema the nature of the halo technology as the true foundation of the modern worldview asceticism in the Middle Ages the world of machines and the world of rite and worship yoga and modern meditation exercises pain as an awakener of knowledge the emergence of the belief in ghosts and the connection between stomach acid and soul qualities

Michael's Mission Rudolf Steiner, 2016-03-21 This will generate a struggle covering the face of the whole earth The one and only remedy for this nonsense being made of human evolution will be the path that can lead humanity to the spirit the path of Michael which finds its continuation in the path of Christ Rudolf Steiner Speaking in the aftermath of the Great War Rudolf Steiner presents a series of extraordinary lectures on the power and mission of the Archangel Michael He paints on a broad canvas in the context of cosmic and human evolution revealing Michael's tasks in the past present and future Originally the countenance of Yahweh Michael has metamorphosed from a night spirit to a day spirit As the Countenance of Christ Michael helps us find a balance between luciferic and ahrimanic tendencies The old dualism such as good versus evil says Steiner needs to be replaced by the trinity of Lucifer Christ Ahriman Filling our heart with the Christ Impulse creates an equilibrium between the luciferic influence that imbues our head and the ahrimanic influence at work in our limbs Rudolf Steiner describes how humanity faces three dangers in the social sphere spiritual life could flow into the pit of mendacity ruled by Ahriman individual rights might descend into the pit of selfishness Lucifer and economics into cultural sickness and death Asuras In order to prevent European American culture from perishing it will be necessary to turn towards contemporary threefold social ideas Steiner also speaks about the principle of metamorphosis in connection with evolution and devolution as evident in the design of the pillars in the newly built Goetheanum Architectural styles are an expression of human evolution as can be seen in Greek temples gothic Cathedrals the Grail temple and the building at Dornach Amidst many other themes Rudolf Steiner addresses the problem of natural necessity and freedom and the abolition of the trichotomy of body soul and spirit at the Council of Constantinople in AD 869

Paths and Goals of the Spiritual Human Being Rudolf Steiner, 2015-08-19 Speaking to audiences in Denmark Germany and France Rudolf

Steiner discusses a wide range of topics from positive and negative human soul capacities true self knowledge and karma to changes in human consciousness from ancient times to the modern era all in the context of the incarnation of Christ on earth The lectures illustrate the diversity of Steiner's approach when speaking to different audiences Reflecting on the polymath Novalis for example he is urgent about the responsibility of spiritual science to help humanity awaken to the new age A few months later talking of Hegel and deploring the fact that an interest in spiritual matters often fails to be accompanied by an equal interest in logical thought Steiner uses a dispassionate philosophical tone But throughout the lectures he is consistent in his view that spiritual science does not reject conventional science Trained philosophical thinking leads to different conclusions than materialism he says but there is nothing in the field of spiritual science that need be rejected by rigorous scientific thought Although the lectures were given to a variety of audiences ideas recur from different perspectives and in different contexts with strong thematic links binding them together These include the relationship between philosophy and science the nature of clairvoyance Christ's presence in the etheric realm reincarnation and karma the mystery drama The Portal of Initiation Christmas and its symbols and the transformation of consciousness that occurred when Christ incarnated physically on earth In the final lectures Rudolf Steiner speaks inspiringly about the Christmas festival contrasting the feeling of inwardness that people used to experience with the hectic cultural environment of modern cities However this does not lead Steiner to be nostalgic about the past Rather he states we should seek to recreate a mood of inwardness in a new way appropriate to our modern age and consciousness These lectures give us the tools to bring such a contemporary spiritual approach to our lives

Human Evolution Rudolf Steiner, 2014-12-15 Returning from travels in war torn Europe Steiner gives a stark impression of the conditions of the time encouraging esoteric work as a counter to the world situation Steiner analyses the gulf between contemporary culture and science which he says are characterized by narrow mindedness philistinism and ineptitude and a scientific approach to the spirit The wealth of spiritual thoughts and knowledge in these lectures remain as relevant today as they did when they were first delivered
