The Mariner'S Guardian V. J. Olson,2011-04-21 When Jillian was born it was foretold that her destiny would be intertwined with that of her childhood friend Elchinar Now Jillian and Elchinar are grown and the Golden Death has struck their village of Nooria When Elchinar and the other Mariners embark on a voyage on the mysterious Gwenendene River to seek for the Golden Deaths only cure no one in Nooria could have foretold how that voyage would affect the entire village or how it would dictate the destinies of Jillian and Elchinar in unforeseen ways proving above all that love is a wondrous thing

Genealogies of Barbados Families ,1983 Throughout the 17th and 18th centuries there was a continuous flow of settlers from Barbados to virtually every point on the Atlantic seaboard with the result that many families in America today trace their origins in the New World first to Barbados Records of Barbados families exist in a variety of places and indeed a great many have been written up and published in the turn of the century journal Caribbeana and The Journal of the Barbados Museum and Historical Society This present work contains every article pertaining to family history ever published in these journals The combined articles reprinted here in facsimile range from conventional genealogies and pedigrees to will abstracts and Bible records and refer to some 15 000 persons all of whom are listed in the index **Women of All Nations**

Thomas Athol Joyce,1908 *Adventurers of Purse and Person, Virginia, 1607-1624/5: Families G-P* John Frederick Dorman,2004 The foundation for this work is the Muster of Jan 1624 25 which had never before been printed in full Page xiii volume 1 **Private Lives of the Ancient Mariner** Molly Lefebure,2013-11-28 A fascinating new study of Samuel Taylor Coleridge Private Lives of the Ancient Mariner illuminates the poet s deeply troubled personality and stormy personal life through a highly original study of his relationships In her last published work the celebrated Coleridgean Molly Lefebure provides profound psychological insights into Coleridge through a meticulous study of his domestic life drawing upon a vast and unique body of knowledge gained from a lifetime s study of the poet and making skilful use of the letters poems and biographies of the man himself and his family and friends The author traces the roots of Coleridge s unarguably dysfunctional personality from his earliest childhood his position as his mother s favoured child the loss of this status with the death of his father and removal to the Bluecoat school in London Coleridge s narcissistic depression flamboyance and cold hearted often cruel rejection of his family and of loving attachments in general are examined in close detail The author also explores Coleridge s careers in journalism and politics as well as poetry in his early heady jacobin days and later at the heart of the British wartime establishment at Malta In both of these arenas Coleridge exerted his talents to brilliant effect although they have often been overlooked in appraisals of his works His virtual abandonment of his children and tragic disintegration under the influence of opium are included in the broad sweep of the book which also encompasses an examination of the lives of Coleridge s children upon whom the manipulations of the father left their destructive mark Molly Lefebure unravels the

enigma that is Coleridge with consummate skill in a book which will bring huge enjoyment to any reader with an interest in the poet's life and times **Captain Cook's Merchant Ships** Stephen Baines, 2015-08-03 While the story of Endeavour is widely written about Captain Cook sailed in or with eight ships which began their lives as merchant ships This detailed illustrated history tells the story of these ships and the people who sailed in them In placing these ships and people in the personal political social financial scientific and religious contexts of their times this book provides a readable and comprehensible account of the long Eighteenth Century Often using contemporary sources this gripping account fills a gap in Cook history and attempts to catch something of that exciting violent gossipy but largely untaught and unknown period through which these vessels and their people sailed literally and figuratively between the old world and the new

Colish, 1997-01-01 This magisterial book is an analysis of the course of Western intellectual history between A D 400 and

1400 The book is arranged in two parts the first surveys the comparative modes of thought and varying success of Byzantine Latin Christian and Muslim cultures and the second takes the reader from the eleventh century revival of learning to the high Middle Ages and beyond the period in which the vibrancy of Western intellectual culture enabled it to stamp its imprint well beyond the frontiers of Christendom Marcia Colish argues that the foundations of the Western intellectual tradition were laid in the Middle Ages and not as is commonly held in the Judeo Christian or classical periods She contends that Western medieval thinkers produced a set of tolerances tastes concerns and sensibilities that made the Middle Ages unlike other chapters of the Western intellectual experience She provides astute descriptions of the vernacular and oral culture of each country of Europe explores the nature of medieval culture and its transmission profiles seminal thinkers Augustine Anselm Gregory the Great Aquinas Ockham studies heresy from Manichaeism to Huss and Wycliffe and investigates the influence of Arab and Jewish writing on scholasticism and the resurrection of Greek studies Colish concludes with an assessment of the modes of medieval thought that ended with the period and those that remained as bases for later ages of European intellectual history
