Library, 1992 Picturescope, 1982 **Reclaiming Paradise** Gretchen Garner, 1987 Bibliography of Peace Corps Writers, 1994 Appalachian Outlook, 1984 Catalogue of the Amon Carter Museum Photography Collection Amon Carter Museum of Western Art, Carol E. Roark, Paula Ann Stewart, Mary Kennedy McCabe, 1993 **Democratic Art** Sharon Ann Musher, 2015-05-04 Throughout the Great Recession American artists and public art endowments have had to fight for government support to keep themselves afloat It wasn't always this way At its height in 1935 the New Deal devoted 27 million roughly 461 million today to supporting tens of thousands of needy artists who used that support to create more than 100 000 works Why did the government become so involved with these artists and why weren't these projects considered a frivolous waste of funds as surely many would be today In Democratic Art Sharon Musher explores these questions and uses them as a springboard for an examination of the role art can and should play in contemporary society Drawing on close readings of government funded architecture murals plays writing and photographs Democratic Art examines the New Deal's diverse cultural initiatives and outlines five perspectives on art that were prominent at the time art as grandeur enrichment weapon experience and subversion Musher argues that those engaged in New Deal art were part of an explicitly cultural agenda that sought not just to create art but to democratize and Americanize it as well By tracing a range of aesthetic visions that flourished during the 1930s this highly original book outlines the successes shortcomings and lessons of the golden age of government funding for the arts **The Modern West** Emily Ballew Neff, Barry Holstun Lopez, 2006-01-01 A fascinating and novel exploration of the transformative role played by the American West in the development of modernism in the United States Drawing extensively from various disciplines including ethnology geography geology and environmental studies this

groundbreaking book addresses shifting concepts of time history and landscape in relation to the work of pioneering American artists during the first half of the 20th century Paintings watercolors and photographs by renowned artists such as Frederic Remington Georgia O Keeffe Ansel Adams Thomas Hart Benton Dorothea Lange and Jackson Pollock are considered alongside American Indian ledger drawings tempuras and Dineh sandpaintings Taken together these works document the quest to create a specifically American art in the decades prior to World War II The Modern West begins with a captivating meditation on the relationship between human culture and the physical landscape by Barry Lopez who traveled the West in the artists footsteps Emily Ballew Neff then describes the evolving importance of the West for American artists working out a radically new aesthetic response to space and place from artist explorers on the turn of the century frontier to visionaries of a Californian arcadia to desert luminaries who found in its stark topography a natural equivalent to abstraction Beautifully illustrated and handsomely designed this book is essential to anyone interested in the West and the history of modernism in American art

Hope Among Us Yet David P. Peeler, 2008 In *Hope Among Us Yet* David Peeler examines art and literature of the Great Depression to reveal a common pursuit and common dream in the work of writers photographers and painters who turned their talents toward the utter dislocation and despair of 1930s America Thrust out of the gilded world of the 1920s by the extent of the crisis these artists used their canvases cameras and pens to condemn capitalism and seal its demise with stunning evidence of its evils As the years drew on however artists began to dream of a new more equitable social order and the solace of those dreams rather than the earlier vilification came to dominate Depression art Discussing the photographs and paintings many of them reproduced in this book the essays and novels of the Depression era David Peeler shows that in their pursuit of the reality of 1930s America social artists also dreamed of a rebirth of Western art But as American capitalism revived with the onset of World War II hopes for a new order faded and the vision of the Depression s artists remained the unfilled prophecy of their works

Capturing the South Scott L. Matthews, 2018-10-26 In his expansive history of documentary work in the South during the twentieth century Scott L Matthews examines the motivations and methodologies of several pivotal documentarians including sociologist Howard Odum photographers Jack Delano and Danny Lyon and music ethnographer John Cohen Their work salvaged and celebrated folk cultures threatened by modernization or strived to reveal and reform problems linked to the region s racial caste system and exploitative agricultural economy Images of alluring primitivism and troubling pathology often blurred together neutralizing the aims of documentary work carried out in the name of reform during the Progressive era New Deal and civil rights movement Black and white southerners in turn often resisted documentarians attempts to turn their private lives into public symbols The accumulation of these influential and occasionally controversial documentary images created an enduring complex and sometimes self defeating mythology about the South that persists into the twenty first century
