*Marriage and Family Therapy* Terry S Trepper, Roger A Straus, Faye Hurvitz, 2014-05-12 Marriage and Family Therapy A Sociocognitive Approach

is a comprehensive and clearly written introduction to sociocognitive therapy. It is rich with transcripts and case examples culled from the authors' more than thirty-five years of practice, providing you with valuable background information on helping difficult-to-reach and hard-to-help populations. In practical language, this volume takes you step by step through methods of assessment and change that are useful in traditional and nontraditional families and couples. With clear language and taxonomy for family troubles and their resolution, *Marriage and Family Therapy* provides conceptual handles to guide you in learning intervention strategies, enabling you to work effectively with most notably lower working class and poor inner city African American families. A highlight of the book is the detailed look at terminal and instrumental interaction hypotheses and how they can be applied in actual therapy situations. With *Marriage and Family Therapy* as a guide, you will develop multiple skills and methods that equip you to better handle the challenging task of helping troubled families and couples. The first two chapters present the theoretical framework of the sociocognitive approach. In the third chapter, the assessment and change concepts central to Dr. Hurvitz's approach are introduced. The last four chapters show how these humanist principles are applied through the phases of opening, change, producing, and termination in therapy, creating an invaluable book for marriage and family therapists, social workers, psychologists, and educators.

**Couples and Family Therapy in Clinical Practice** Ira D. Glick, Douglas S. Rait, Alison M. Heru, Michael Ascher, 2015-10-26 *Couples and Family Therapy in Clinical Practice* has been the psychiatric and mental health clinician's trusted companion for over four decades. This new fifth edition delivers the essential information that clinicians of all disciplines need to provide effective family-centered interventions for couples and families. A practical clinical guide, it helps clinicians integrate family systems approaches with pharmacotherapies for individual patients and their families. *Couples and Family Therapy in Clinical Practice* draws on the authors' extensive clinical experience as well as on the scientific literature in the family systems, psychiatry, psychotherapy, and neuroscience fields.

**The Couple and Family Therapist's Notebook** Katherine M. Hertlein, Dawn Viers, 2014-01-02 Get a sneak peek at clinical vignettes that demonstrate the power of creative interventions. Couples and families present unique challenges in therapy, and other books rarely illustrate the effectiveness of particular types of interventions on actual cases. *The Couple and Family Therapist's Notebook* provides clinicians with a wide range of practical, field-tested therapy activities and homework that are solidly grounded in each intervention's theoretical underpinning, then explores their effectiveness by briefly relating real-life cases. Continuing *The Haworth Press Therapist's Notebook* series, respected experts detail how to perform several creative interventions and then follow with insightful clinical vignettes to illustrate under what specific circumstances each particular approach is effective. Each chapter of *The Couple and Family Therapist's Notebook: Homework Handouts and Activities for Use in Marital and Family Therapy* has an objective statement to orient the reader to the homework handout or activity, followed by a rationale. Instructions explain how to perform the activity, followed by a clinical case vignette, a section of contraindications, and a list of useful resources for both the practitioner and the client. Illustrations and appendixes also

provide helpful guides for the therapist The Couple and Family Therapist s Notebook Homework Handouts and Activities for Use in Marital and Family Therapy gives you the tools for approaches such as emotionally focused therapy symbolic experiential therapy transgenerational theory solution focused therapy experiential therapy and many others And some of the intervention techniques that are illustrated the Metaphor of Gardens the Coming Clean Ritual creating rituals for couples coping with early pregnancy loss the Four C s of Parenting identifying family rules the Systemic Kvebaek Technique physical acting techniques the Feelings Game writing to combat adolescent silence in family therapy Family Stress Balls the Goodbye Book the Puppet Reflecting Team Technique family based school interventions and many more The Couple and Family Therapist s Notebook Homework Handouts and Activities for Use in Marital and Family Therapy provides invaluable insight and vital clinical tools for creative couple and family intervention perfect for adaptation by counselors psychotherapists practitioners in private practice school systems hospitals government settings homeless shelters and not for profit agencies and counseling centers

The Practical Practice of Marriage and Family Therapy Terry S Trepper, Charles E Campbell, Mark O'Dell, Lorna L Hecker, 2013-09-05 It is a truism among therapists in most mental health disciplines that the most important aspects of clinical practice are learned only after one has left graduate school and entered the real world While many of the basics could be covered in graduate school supervisors of new therapists often feel that the fundamentals are only addressed in detail after a therapist has been employed In response to this predicament Odell and Campbell offer The Practical Practice of Marriage and Family Therapy Things My Training Supervisor Never Told Me as a useful daily guide for graduate students and beginning marriage and family therapists that will ease the transition from learner to practicing professional in the clinical domain Written in a refreshing and unpretentious style much the way a caring seasoned professional would mentor a novice practitioner The Practical Practice of Marriage and Family Therapy covers the major areas that typical graduate programs don t have time to address including how to integrate theoretical training with pragmatic clinical practice to maximize therapeutic effectiveness face the practical problems involving the financial elements of clinical work become a thoroughly credentialed professional develop an approach to becoming specialized uncover the motivation for being a professional marriage and family therapist increase one s ability to maintain high level practice over a lifetime of work by developing coping strategies and methods of safeguarding one s own mental health Addressing the unique approach of their book Odell and Campbell explain Whereas most texts are handbooks on the actual theories and techniques used with couples and families this book is designed to be a guide to the beginning professional as s he leaves the graduate training environment and enters the mental health field as it exists in contemporary America Our hope is that this book would be one of those chosen by the novice practicing professional if s he could only take two or three with them into the field as it contains material that is most useful for everyday work in clinical settings
