*Mark Twain on Man and Beast* Janet Smith, 1972 Selections from the works of Mark Twain on a variety of topics Mark Twain's Book of Animals Mark Twain, Shelley Fisher Fishkin, Barry Moser, 2011-07 For those unaware as I was until I read this book that Mark Twain was one of America's early animal advocates Shelley Fisher Fishkin's collection of his writings on animals will come as a revelation Many of these pieces are as fresh and lively as when they were first written and it's wonderful to have them gathered in one place Peter Singer author of *Animal Liberation* and *The Life You Can Save* A truly exhilarating work Mark Twain's animal friendly views would not be out of place today and indeed in certain respects Twain is still ahead of us claiming correctly that there are certain degraded practices that only humans inflict on one another and upon other animals Fishkin has done a splendid job I cannot remember reading something so consistently excellent Jeffrey Moussaieff Masson author of *When Elephants Weep* and *The Face on Your Plate* Shelley Fisher Fishkin has given us the lifelong arc of the great man's antic hilarious and subtly profound explorations of the animal world and she's guided us through it with her own trademark wit and acumen Dogged if she hasn't Ron Powers author of *Dangerous Water* A Biography of the Boy Who Became Mark Twain and *Mark Twain A Life* MAN IS THE ONLY ANIMAL THAT BLUSHES OR NEEDS TO MARK TWAIN, 1970 *God, Man, and Beast* Paul D. **Humanism: In Command or in Crisis?** Michael A. Schuler, 2023-08-31 According to bestselling historian Yuval Noah Harari today's average American has their foot in three ideological camps nationalism free market capitalism and humanism The first two might seem obvious but the third It's entirely possible that most who qualify for that label would be hard pressed to explain its meaning much less use it self descriptively This book is designed to serve two important purposes First to provide an accessible resource for anyone curious about the humanist tradition and the arguments advanced by leading contemporary proponents Second to address what the author believes is a critical question for our time the era of the Anthropocene Is humanism's seemingly benign package of values at least partially responsible for some of the world's most pressing problems To answer the last question Schuler draws from an eclectic collection of commentators including life scientists spiritual writers public intellectuals technologists novelists and even poets In the end this wide ranging survey will help the reader determine whether humanism makes sense for them
