and layout of health care facilities Television manufacturers seized on the idea of therapeutic TV specifying in their
promotional materials how TVs should be used in the hospital and positioned in relation to the viewer With the debut of
direct to consumer prescription drug advertising in the late 1990s television assumed a much larger role in the medical
marketplace Taking a case study approach Fuqua uses her analysis of an ad campaign promoting Pfizer s Viagra to illustrate
how television and later the Internet turned the modern home into a clearinghouse for medical information redefined and
