environment the Dames conceptualized a type of economic citizenship in which individuals activities such as buying goods selling food or paying taxes positioned them within the body politic and enabled them to make claims on the state They insisted that their work as merchants served society and demanded that the state pass favorable regulations for them in return In addition they drew on their patriotic work as activists and their gendered work as republican mothers to compel the state to provide practical currency and assist indigent families Thus their notion of citizenship portrayed useful work rather than gender as the cornerstone of civic legitimacy In this original work Katie Jarvis challenges the interpretation that the Revolution launched an inherently masculine trajectory for citizenship and reexamines work gender and citizenship at the cusp of modern democracy

Mayas in the Marketplace Walter E. Little, 2004-12-01 Selling handicrafts to tourists has brought the Maya peoples of Guatemala into the world market Vendors from rural communities now offer their wares to more than 500 000 international tourists annually in the marketplaces of larger cities such as Antigua Guatemala City Panajachel and Chichicastenango Like businesspeople anywhere Maya artisans analyze the desires and needs of their customers and shape their products to meet the demands of the market But how has adapting to the global marketplace reciprocally shaped the identity and cultural practices of the Maya peoples Drawing on over a decade of fieldwork Walter Little presents the first ethnographic study of Maya handicraft vendors in the international marketplace Focusing on Kaqchikel Mayas who commute to Antigua to sell their goods he explores three significant issues how the tourist marketplace conflates global and local distinctions how the marketplace becomes a border zone where national and international developed and underdeveloped and indigenous and non indigenous come together how marketing to tourists changes social roles gender relationships and ethnic identity in the vendors home communities Little s wide ranging research challenges our current understanding of tourism s negative impact on indigenous communities He demonstrates that the Maya are maintaining a specific community based sense of Maya identity even as they commodify their culture for tourist consumption in the world market
