and over 215 billion US 300 billion turnover per annum However compared to its scale in the US and Australia franchising is not realising its full potential in the EU and the author points to the lack of homogeneity across members states as a large part of the problem The book concludes by arguing for the adoption of a draft directive and proposes a draft directive which promotes market confidence in franchising provides pre contractual hygiene and imposes a mandatory taxonomy of rights and obligations This highly topical and comprehensive work will appeal to franchise lawyers and franchise academics as this is the first book that analyses the impact of EU and member state law upon the use of franchising in the EU **Researching**
