*Strategic Market Management* Atindra Kumar Biswas, 2018-01-17. How to Manage Market For Sustainable Profit and Growth. This concise book is an attempt to answer this question by urging the business professionals to see and carry out the entire business from the perspective of customers. The book provides step by step directions to business professionals how to find out the unmet or under met jobs of customers how to choose the market of interest and specific groups of customers for doing business with how to create and deliver winning customer value proposition for these customers through innovation and suitable business models how to navigate the business through product development branding sales and distribution under different kinds of market complexities including commoditization and globalization of markets and provide seamless experience to the customers. The book ends with recommending ways to manage customer loyalty and profitability and steering the firm to the path of sustained profitable growth.

*Strategic Market Management* David A. Aaker, Damien McLoughlin, 2010. The text is a European adaptation of our current US book Strategic Market Management 9th Edition by David Aaker. This new edition is a mainstream text suitable for all business students studying strategy and marketing courses. Strategic Market Management: Global Perspectives is motivated by the strategic challenges created by the dynamic nature of markets. The premise is that all traditional strategic management tools either do not apply or need to be adapted to a more dynamic context. The unique aspects of the book are its inclusion of a business strategy definition that includes product market scope value proposition and assets and competences. A structured strategic analysis including a detailed customer competitor market and environmental analysis leading to understanding of market dynamics that is supported by a summary flow diagram a set of agendas to help start the process and a set of planning forms. Concepts of strategic commitment opportunism and adaptability and how they can and should be blended together. Bases of a value proposition and strong brands. A strategy without a compelling value proposition will not be market driven or successful. Brand assets that will support a business strategy need to be developed. Creating synergetic marketing with silo organisations defined by products or countries. All organisations have multiple products and markets and creating cooperation and communication instead of competition and isolation is becoming an imperative. A global perspective is an essential aspect of this new edition. This reflects the lived experience of the student reader but also their likely professional challenges. This is achieved by the extensive use of new examples and vignettes.
