**Archaeologies of Empire** Anna L. Boozer, Bleda S. Düring, Bradley J. Parker, 2020-10-15 Throughout history a large portion of the world s population has lived under imperial rule Although scholars do not always agree on when and where the roots of imperialism lie most would agree that imperial configurations have affected human history so profoundly that the legacy of ancient empires continues to structure the modern world in many ways Empires are best described as heterogeneous and dynamic patchworks of imperial configurations in which imperial power was the outcome of the complex interaction between evolving colonial structures and various types of agents in highly contingent relationships The goal of this volume is to harness the work of the next generation of empire scholars in order to foster new theoretical and methodological perspectives that are of relevance within and beyond archaeology and to foreground empires as a cross cultural category This book demonstrates how archaeological research can contribute to our conceptualization of empires across disciplinary boundaries

Caplan,2009-12-03 Indigenous Citizens challenges the commonly held assumption that early nineteenth century Mexican state building was a failure of liberalism By comparing the experiences of two Mexican states Oaxaca and Yucatán Caplan shows how the institutions and ideas associated with liberalism became deeply entrenched in Mexico's regions but only on locally acceptable terms Faced with the common challenge of incorporating new institutions into political life Mexicans be they indigenous villagers government officials or local elites negotiated ways to make those institutions compatible with a range of local interests Although Oaxaca and Yucatán both had large indigenous majorities the local liberalisms they constructed incorporated indigenous people differently as citizens As a result Oaxaca experienced relative social peace throughout this era while Yucatán exploded with indigenous rebellion beginning in 1847 This book puts the interaction between local and national liberalisms at the center of the narrative of Mexico's nineteenth century It suggests that liberalism must be understood not as an overarching system imposed on the Mexican nation but rather as a set of guiding assumptions and institutions that Mexicans put to use in locally specific ways      Bad Christians, New Spains Byron

Ellsworth Hamann,2019-10-28 This book centers on two inquisitorial investigations both of which began in the 1540s One involved the relations of Europeans and Native Americans in an Oaxacan town in New Spain today's Mexico The other involved relations of Moriscos recent Muslim converts to Catholicism and Old Christians people with deep Catholic ancestries in the Mediterranean kingdom of Valencia in the old Spain Although separated by an ocean the social worlds preserved in the inquisitorial files share many things By comparing and contrasting the two inquisitions Hamann reveals how very local practices and debates had long distance parallels that reveal the larger entanglements of a transatlantic early modern world Through a dialogue of two microhistories he presents a macrohistory of large scale social transformation We see how attempts in both places to turn old worlds into new ones were centered on struggles over materiality and temporality By paying close attention to theories and practices of reduction and conversion Hamann suggests we can move beyond anachronistic models of social change as colonization and place questions of time and history at the center of our understandings of the sixteenth century past The book is an intervention in major debates in both history and anthropology about the writing of global histories our conceptualizations of the colonial the nature of religious and cultural change and the roles of material things in social life and the imagination of time      *Ownership Regimes in the Iberian World (1500-1850)*

scholars from different regions show how complex social religious and cultural norms shaped efficient and enduring land use arrangements It challenges historians and legal scholars to examine the interplay of these norms in the Iberian world uncovering how they defined ownership division regulation and conflict resolution in various regions Contributors are Manuel Bastias Saavedra Alessandro Buono Thiago Mota Jos Carlos De La Puente Luna Igo Ena Sanju n Alcira Due as Marta Mart n Gabald n Carolina Jurado Crislayne Alfagali and Rosa Congost     The Mexican Mission Ryan Dominic Crewe,2019-06-27 Offers a social history of the Mexican mission enterprise emphasizing the centrality of indigenous politics economics and demographic catastrophe     **A Concise History of Mexico** Brian R.
