Steineck, 2014-09-03 Did East Asian literatures ranging from bronze inscriptions to zazen treatises lack a concept of authorship before their integration into classical modernity. The answer depends on how one defines the term author Starting out with a critical review of recent theories of authorship this edited volume distinguishes various author functions which can be distributed among several individuals and need not be integrated into a single source

of textual meaning Chinese Japanese and Korean literary traditions cover the whole spectrum from weak composite to strong individual forms and concepts of authorship Divisions on this scale can be equated with gradual differences in the range of self articulation Contributors are Roland Altenburger Alexander Beecroft Marion Eggert Simone M ller Christian **Commerce in Culture** Cynthia J. Brokaw, 2020-03-23 Sibao today is a cluster of Schwermann and Raji Steineck impoverished villages in the mountains of western Fujian Yet from the late seventeenth through the early twentieth century it was home to a flourishing publishing industry Through itinerant booksellers and branch bookshops managed by Sibao natives this industry supplied much of south China with cheap educational texts household guides medical handbooks and fortune telling manuals It is precisely the ordinariness of Sibao imprints that make them valuable for the study of commercial publishing the text production process and the geographical and social expansion of book culture in Chinese society In a study with important implications for cultural and economic history Cynthia Brokaw describes rural lower level publishing and bookselling operations at the end of the imperial period Commerce in Culture traces how the poverty and isolation of Sibao necessitated a bare bones approach to publishing and bookselling and how the Hakka identity of the Sibao publishers shaped the configuration of their distribution networks and even the nature of their publications Sibao s industry reveals two major trends in print culture the geographical extension of commercial woodblock publishing to hinterlands previously untouched by commercial book culture and the related social penetration of texts to lower status levels of the population
