Studying Christian Spirituality David B. Perrin, 2007-08-07 This book provides a new introduction to the study of Christian spirituality exploring it through the human sciences and ranging from philosophy and hermeneutics to psychology history sociology and anthropology Systematic and progressive it introduces the key approaches and shows how they relate to the understanding study and practice of spirituality Covering a vast amount of ground from traditional themes such as images of God spiritual direction and pilgrimage to more contemporary issues such as place and space cyberspace and postcolonialism the author takes an ecumenical inclusive stance allowing the book to be used in a wide variety of courses and across denominations *Reading as Collective Action* Nicholas Hengen Fox, 2017-10-01 Literature is powerful It offers respite It provides access to beauty and horror to new places new people and new ideas It can as the phrase goes change your life Good things all of them But also somewhat limited goods they're all pretty passive pretty private you might even say self-centered Reading as Collective Action shifts our focus outward to another of literature's powers the power to reshape our world in very public very active ways In this book you will encounter readers who criticized the Bush administration's war on terror by republishing poems by writers ranging from Shakespeare to Amiri Baraka everywhere from lampposts to the New York Times You will read about people in Michigan and Tennessee who leveraged a community reading program on John Steinbeck's *The Grapes of Wrath* to organize support for those in need during the Great Recession and to engage with their neighbors about immigration You will meet a pair of students who took to public transit to talk with strangers about working class literature and a trio who created a literary website that reclaimed the working class history of the Pacific Northwest This book challenges dominant academic modes of reading For adherents of the civic turn it suggests how we can

create more politically effective forms of service learning and community engagement grounded in a commitment to tactical grassroots actions Whether you re a social worker or a student a zine maker a librarian a professor or just a passionate reader with a desire to better your community this book shows that when we read texts as tactics that book changed my life can become that book changed our lives

Community Organization Jesse Frederick Steiner,1925 *Reading Culture and Writing Practices in Nineteenth-century France* Martyn Lyons,2008-01-01 Between about 1830 and the outbreak of the First World War print culture reading and writing transformed cultural life in Western Europe in many significant ways Book production and consumption increased dramatically and practices such as letter and diary writing were widespread This study demonstrates the importance of the nineteenth century in French cultural change and illustrates the changing priorities and concerns of l histoire du livre since the 1970s From the 1830s on book production experienced an industrial revolution which led to the emergence of a mass literary culture by the close of the century At the same time the western world acquired mass literacy New categories of readers became part of the reading public while western society also learned to write *Reading Culture and Writing Practices in Nineteenth Century France* examines how the concerns of historians have shifted from a search for statistical sources to more qualitative assessments of readers responses Martyn Lyons argues that autobiographical sources are vitally important to this investigation and he considers examples of the intimate and everyday writings of ordinary people Featuring original and intriguing insights as well as references to material hitherto inaccessible to English readers this study presents a form of history from below with emphasis on the individual reader and writer and his or her experiences and perceptions

A History of Reading in the West Guglielmo Cavallo,Roger Chartier,1999 Literature has not always been written in the same ways nor has it been received or read in the same ways over the course of Western civilization Cavallo Greek palaeography U of Rome La Sapienza Chartier Ecole des Hautes Etudes en Sciences Sociales Paris and a number of other international contributors address themes that highlight the transformation of reading methods and materials over the ages such as the way texts in the Middle Ages were often written with the voice in mind as they would have been read aloud or even sung Articles explore the innovations in the physical evolution of the book as well as the growth and development of a broad based reading public

Religious Inventions William Arnal,Erin K. Vearncombe,2025-05-13 Religion is a modern invention a category used to describe and study certain kinds of human behaviour Yet when it comes to the ancient world and its texts including those that comprise the Jewish and Christian Bibles it can be easy to forget that they did not fall from the sky as simple expressions of dogma Rather the ancient writings of early Judaism and Christianity are

firmly rooted in the world and are the product of an astonishing array of human experience and agency acts of self fashioning of imaginative speculation of mourning and memorializing of forming dissolving or refashioning group identities and more Religious Inventions asks how modern conceptions of religion can shed light on the relics textual and otherwise of ancient Mediterranean Jews and Christians What insights from the contemporary study of religious behaviours and practices challenge what we think we know about the ancient world Conversely how can thinking about the ancient world challenge what we think we know about religion today This volume responds to these questions through explorations of the material and social circumstances behind the production of written artifacts It examines how religious practices relate to conceptions of identity and critiques the utility of the comparative method for approaching ancient writings Textual authority is used and abused by many of today s public figures Religious Inventions offers an alternative approach to understanding how authority is constructed from the ground up by the creative actions and choices of real people who lived long ago

The Bible and the Crisis of Meaning Christopher Spinks, 2007-08-30 Many of the most pressing issues in theology and the church today depend greatly on the understanding of the bible Recent debates on the theological interpretation of scripture have emerged which consider whether the meaning of scripture should concern theologians and church leaders at all The Bible and the Crisis of Meaning is an account of these debates in examining the concept of meaning in current proposals of theological interpretation The concept of meaning is deduced either from the supposed nature of the texts and their authors or from the function of the texts in religious communities Thus approaches to theological interpretation become debates between ontological and pragmatic strategists Stephen Fowl and Kevin Vanhoozer have embraced the term theological interpretation for their separate projects but their ideas of what this means and how meaning is a part of it differ greatly Christopher Spinks describes their respective concepts of meaning and argues for a more holistic concept that allows theological interpreters to understand their craft not so much as a discovery of intentions or the creation of interests but as a conversation in which truth is mediated
