The implications of their study are far reaching By identifying the rhetorical steps that must be followed in explicating any literary work Rice and Schofer provide the reader with a clear guide to fiction of all genres and periods Anyone involved in literary interpretation and looking for a model that promises a heightened appreciation and grasp of figurative texts will welcome the resulting volume Writing and Reading Byzantine Secular Poetry, 1025-1081 Floris Bernard, 2014-07-17 In the mid eleventh century secular Byzantine poetry attained a hitherto unseen degree of wit vividness and personal involvement chiefly exemplified in the poetry of Christophoros Mitylenaios Ioannes Mauropous and Michael Psellos This is the first volume to consider this poetic activity as a whole critically reconsidering modern assumptions about Byzantine poetry and focusing on Byzantine conceptions of the role of poetry in society By providing a detailed account of the various media through which poetry was presented to its readers and by tracing the initial circulation of poems this volume takes an interest in the Byzantine reader and his her reading habits and strategies allowing aspects of performance and visual representation rarely addressed to come to the fore It also examines the social interests that motivated the composition of poetry establishing a connection with the extraordinary social mobility of the time Self representative strategies are analyzed against the background of an unstable elite struggling to find moral justification which allows the study to raise the question of patronage examine the discourse used by poets to secure material

rewards and explain the social dynamics of dedicatory epigrams Finally gift exchange is explored as a medium that underlines the value of poetry and confirms the exclusive nature of intellectual friendship
