Classroom Issues Mal Leicester, Sohan Modgil, 2005-10-05 Volume III provides a focus on the classroom pedagogy curriculum and pupil experience It covers relatively neglected areas of curriculum development such as mathematics and technology as well as the more familiar terrain of literature and drama A particularly useful section deals with aesthetic education

Leveled Reading, Leveled Lives Timothy Shanahan, 2025-07-28 An engaging and evidence based examination of how reading instruction has been misinterpreted and misapplied for decades and how to right the course to improve reading skills for all students In *Leveled Reading Leveled Lives* leading literacy expert Timothy Shanahan curates a lively tour of the history of reading instruction in the United States arguing that the most popular reading instruction method is failing students and suppressing their literacy achievement He breaks down the reasons why teachers and researchers alike have favored this accepted wisdom known as instructional level theory in US schools over the past five decades and presents a compelling case for a new way forward that will bolster students reading skills Today it s not uncommon to find students in a fourth grade classroom reading books suitable for third second or even first graders Teachers suggest books to students at their deemed instructional levels but how these instructional levels are determined is suspect With a comprehensive critical analysis of instructional level pedagogy Shanahan exposes its shaky foundations and shows how faulty research findings have become so entrenched He gathers an extensive body of research studies that overwhelmingly contradict the instructional level theory and offers an evidence based consideration of how educators must instead use grade level reading to bring about maximum learning gains This seminal book concludes with practical advice for implementing grade level reading instruction including detailed descriptions of the types of instruction and scaffolding needed to increase students reading achievement from teaching decoding and challenging texts to scaffolding reading to maintaining motivation Shanahan asserts that a better approach can ensure that all students have an opportunity to leave high school with reading abilities commensurate with their personal social civic and economic goals

Guidelines to Teaching Remedial Reading Robert J. Field, Lillie Pope, 1996 Ethnolinguistic Diversity and Education Marcia Farr, Lysa Seloni, Juyoung Song, 2009-12-04 In recent decades the linguistic and cultural diversity of school populations in the United States and other industrialized countries has rapidly increased along with globalization processes At the same time schooling as it is currently constituted continues to be ineffective for large numbers of students Exploring crucial issues that emerge at the intersection of linguistic diversity and education this volume provides an up to date review of sociolinguistic research and practice aimed at improving education for students who speak vernacular varieties of US English English based Creole languages and non English languages explores the impact of dialect differences and community languages on ethnolinguistically diverse students academic achievement challenges the dominant monolingual Standard language ideology presents sociolinguistically based approaches to language and literacy education that acknowledge and build on the linguistic and cultural resources students bring into the school Throughout the authors argue for the application of research based knowledge to the dire situation as measured by school failure and drop out rates of many ethnolinguistic populations in US schools The overall aim of the volume is to heighten acknowledgement and recognition of the linguistic and cultural resources students bring into the schools and to explore ways in which these resources can be used to extend the sociolinguistic repertoires including academic English of all students

The Lancasterian System of Education, with Improvements. By Its Founder, J. L. Joseph LANCASTER (Founder of the Lancasterian System of Education.), 1821

Principles of Classroom Learning and Perception Richard J. Mueller, 2017-09-13 Originally published in 1974 this introductory text has been designed specifically for teachers in training and it presents the basic psychological principles governing learning perception motivation and the retention of knowledge at the time The text is carefully tailored for would

be teachers in its clear and informal style and in its selective aspects of psychology which the teacher can use to advantage in his efforts to assist the child The book has an eclectic approach to psychological theory drawing upon the insights of behaviourism perceptualism and the Gestalt school as well as the developmental theories of Jean Piaget The author discusses in some detail theories concerning the nature of intelligence and the relationship between creativity and intelligence and he investigates the dynamics of social adjustment introducing the part that may be played by meditation in helping to solve some of the problems of emotional stress within the learning situation In his consideration of the management of learning the author lays much emphasis upon the importance of individual cognitive styles individualizing instruction and independent learning In one chapter Dr Mueller is concerned with factors in the measurement of personality and of performance in the classroom and he reflects upon the specific problem of objectivity in such assessment Finally some consideration is given to the problems and characteristics of the socially disadvantaged child and to the role of the teacher in helping to solve some of the learning problems of these children **successful farming** ,1916 **Research in Education** ,1974 *Resources in Education* ,2001-04
