Pennington, 2012-07-01 This textbook on how to read the Gospels well can stand on its own as a guide to reading this New Testament genre as Scripture It is also ideally suited to serve as a supplemental text to more conventional textbooks that discuss each Gospel systematically Most textbooks tend to introduce students to historical critical concerns but may be less adequate for showing how the Gospel narratives read as Scripture within the canonical framework of the entire New Testament and the whole Bible yield material for theological reflection and moral edification Pennington neither dismisses nor duplicates the results of current historical critical work on the Gospels as historical sources Rather he offers critically aware and hermeneutically intelligent instruction in reading the Gospels in order to hear their witness to Christ in a way that supports Christian application and proclamation How to Read the New Testament Wilhelm Egger, 1996 How to Read the New Testament is not an introduction to linguistics and New Testament interpretation As the subtitle indicates it is more

broadly conceived an introduction to linguistic and historical critical methodologies Its emphasis on linguistics particularly in part 3 Reading Synchronously however cannot be understated and it will provide a fresh approach to the text for many New Testament interpreters Traditional methods of historical criticism are discussed in parts 4 Reading Diachronically and 5 Reading Historically But Egger is not as interested in the methods themselves as he is in how their application informs a reading of the New Testament texts Part 6 Reading Hermeneutically explores how the New Testament can continue to be relevant in the life of the church This important volume integrates the fruit of historical criticism with the rewards of linguistic analysis Egger s book does a magnificent job in introducing new approaches to the New Testament as well as the classic approaches and showing how they can and must be integrated for optimal understanding of the text It should be the first choice of a textbook for introductory courses in New Testament Adela Yarbro Collins Professor of New Testament in the Divinity School and Chair Department of New Testament and Early Christian Literature University of Chicago
