## Reading Comprehension: The Weather in the UK

Read the following passage and then complete the task below:

The weather in England is mild, dry or wet and windy in autumn. It is a beautiful season because all the leaves change colour to a golden yellow, orangey-red and lots of golden brown. It isn't usually cold in October and November, but it is windy and wet some days. Some mornings get foggy, making it difficult to drive into work or walk to school. Winter, on the other hand, is usually freezing. The temperature falls below zero. It may snow once or twice and there are stormy winds. There is frost

on the pavements and roads in the early morning. Children like to slide down slopes and build snowmen if it snows heavily enough. Spring is the best season because it is warm again after the long, cold, wet and foggy winter days. All the trees are full of new green leaves and you can see lovely spring flowers like daffodils everywhere. The weather in spring is not always nice in April. It often rains and there can be strong winds too. Sometimes it's cloudy, but it is warm and sunny most of the time. The best season is summer with blue skies and lots of sunshine. It tends to get very hot in July and August when all the fans come out at night and beach visits are more regular.
