Subjectivity and Women's Poetry in Early Modern England Lynnette McGrath,2017-11-01 This title was first published in 2002 Combining the approaches of historic scholarship and post structural feminist psychoanalytic theory to late 16th and early 17th century poetry by women this book aims to make a unique contribution to the field of the study of early modern women's writings One of the first to concentrate exclusively on early modern women's poetry the full length critical study to apply post Lacanian French psychoanalytic theory to the genre The strength of this study is that it merges analysis of socio political constructions affecting early modern women poets writing in England with the psychoanalytic insights specific to women as subjects of post Lacanian theorists Luce Irigaray Helen Cixous Julia Kristeva and Rosi Braidotti

Normal Instructor and Teachers World ,1928 **A Companion to Romance** Corinne Saunders,2008-04-15 Romance is a varied and fluid literary genre notoriously difficult to define This groundbreaking Companion surveys the many permutations of romance throughout the ages Considers the literary and historical development of the romance genre from its classical origins to the present day Incorporates discussion of the changing readership of romance and of romance's special relation to women readers Comprises 30 essays written by leading authorities on different periods and sub genres Challenges the idea that the appeal of romance is exclusively escapist Draws on a wide range of specific and influential literary examples **All Hands** ,1949 **Reading Women** Heidi Brayman Hackel,Catherine E. Kelly,2011-08-02 In 1500 as many as 99 out of 100 English women may have been illiterate and girls of all social backgrounds were the objects of purposeful efforts to restrict their access to full literacy Three centuries later more than half of all English and Anglo American women could read and the female reader was emerging as a cultural ideal and a market force While scholars have written extensively about women's reading in the nineteenth and twentieth centuries and about women's writing in the early modern period they have not attended sufficiently to the critical transformation that took place as female readers and their reading assumed significant cultural and economic power Reading Women brings into conversation the latest scholarship by

early modernists and early Americanists on the role of gender in the production and consumption of texts during this expansion of female readership Drawing together historians and literary scholars the essays share a concern with local specificity and material culture Removing women from the historically inaccurate frame of exclusively solitary silent reading the authors collectively return their subjects to the activities that so often coincided with reading shopping sewing talking writing performing and collecting With chapters on samplers storytelling testimony and translation the volume expands notions of reading and literacy and it insists upon a rich and varied narrative that crosses disciplinary boundaries and national borders

Reading in Tudor England Eugene R. Kintgen, 2010-11-23 Readers in the sixteenth century read that is interpreted texts quite differently from the way contemporary readers do they were trained to notice different aspects of a text and to process them differently Using educational works of Erasmus Ascham and others commentaries on literary works various kinds of religious guides and homilies and self improvement books Kintgen has found specific evidence of these differences and makes imaginative use of it to draw fascinating and convincing conclusions about the art and practice of reading Kintgen ends by situating the book within literary theory cognitive science and literary studies Among the writers covered are Gabriel Harvey E K the commentator on The Shepheardes Calendar Sir John Harrington George Gascoigne George Puttenham Thomas Blundeville and Angel Day

Defending Literature in Early Modern England Robert Matz, 2000-07-27 Why was literature so often defended and defined in early modern England in terms of its ability to provide the Horatian ideal of both profit and pleasure This book first published in 2000 analyses Renaissance literary theory in the context of social transformations of the period focusing on conflicting ideas about gentility that emerged as the English aristocracy evolved from a feudal warrior class to a civil elite Through close readings centered on works by Thomas Elyot Philip Sidney and

Edmund Spenser Matz argues that literature attempted to mediate a complex set of contradictory social expectations His original study engages with important theoretical work such as Pierre Bourdieu s and offers a substantial critique of New Historicist theory It challenges recent accounts of the power of Renaissance authorship emphasizing the uncertain status of literature during this time of cultural change and sheds light on why and how canonical works became canonical
