Bratton, 2003-11-27 Over the last two hundred years some important ways of understanding theatre history have been undervalued or ignored by scholars Leading theatre historian Jacky Bratton employs new approaches to examine and challenge this development and to discover how theatre history has been chronicled and how it is interpreted Using a series of case studies from nineteenth century British theatre Bratton examines the difference between the existence of the drama plays and play literature and the stage performance theatre building and attendance By rejecting literary history Bratton experiments with other ways of analysing the past and the ways that have actually seemed relevant to the people on stage This book suggests new histories of theatrical story telling of performing families and of the disregarded dramatic energy of Victorian entertainment As a result we gain a new perspective on theatre history not only for the Romantic and Victorian periods but for the discipline overall *Reading Modern Drama* Alan Ackerman, 2012-04-25 Exploring the relationship between dramatic language and its theatrical aspects Reading Modern Drama provides an accessible entry point for general readers and academics into the world of contemporary theatre scholarship This collection promotes the use of diverse perspectives and critical methods to explore the common theme of language as well as the continued relevance of modern drama in our lives Reading Modern Drama offers provocative close readings of both canonical and lesser known plays from Hedda Gabler to e e cummings Him Taken together these essays enter into an ongoing fruitful debate about the terms modern and drama and build a much needed bridge between literary studies and performance studies **Reading Drama in Eighteenth-Century France** Thomas Wynn, 2024 Thomas Wynn explores how plays were read in eighteenth century France and relatedly the mode of closet drama plays that were never performed within the playhouse Drawing on queer theory Wynn argues that eighteenth century closet reading fostered disruptive pleasures that imparted another side to the period s th tromanie *The Exhibitor*, 1923 Some issues include separately paged sections Better management Physical theatre extra profits Review Servisection **On Referring in Literature** Anna Whiteside, Michael Issacharoff, 1987 What is the relationship between the real world and fictional constructs How is referential illusion created The purpose of this volume is to show the close links between reference and interpretation It examines types of literary reference showing what it is and how it works **Computer Supported Education** H. *Between Baudelaire and Mallarmé* Helen Abbott, 2016-04-15 As the status of poetry became less and less certain over the course of the nineteenth century poets such as Baudelaire and Mallarmé began to explore ways to ensure that poetry would not be overtaken by music in the hierarchy of the arts Helen Abbott examines the verse and prose poetry of these two important poets together with their critical writings to address how their attitudes towards the performance practice of poetry influenced the future of both poetry and music Central to her analysis is the issue of voice a term that remains elusive in spite of its broad application Acknowledging that voice can be physical textual and symbolic Abbott explores the meaning of voice in terms of four categories 1 rhetoric specifically the rules governing the deployment of voice in poetry 2 the human body and its effect on how voice is used in poetry 3 exchange that is the way voices either interact or fail to interact and 4 music specifically the question of whether poetry should be sung Abbott shows how Baudelaire and Mallarmé exploit the complexity and instability of the notion of voice to propose a new aesthetic that situates poetry between conversation and music Voice thus becomes an important process of interaction and exchange rather than something stable or static the implications of this for Baudelaire and Mallarmé are profoundly significant since it maps out the possible future of poetry
