**Reading 1 Corinthians with Philosophically Educated Women** Nathan John Barnes, 2014-03-28 Women were

involved in every popular philosophy in the first century and the participation of women reaches back to the Greek origins of these schools Philosophers often taught their daughters wives and other friends the basic tenets of their thinking The Isthmian games and a tolerance for independent thinking made Corinth an attractive place for philosophers to engage in dialogue and debate further facilitating the philosophical education of women The activity of philosophically educated women directly informs our understanding of 1 Corinthians when Paul uses concepts that also appear in popular moral philosophy This book explores how philosophically educated women would interact with three such concepts marriage and family patronage and self sufficiency **Women and the Periodical Press in China's Long Twentieth Century** Michel Hockx,Joan Judge,Barbara Mittler,2018-05-24

In this major new collection an international team of scholars examine the relationship between the Chinese women s periodical press and global modernity in the late nineteenth and twentieth centuries The essays in this richly illustrated volume probe the ramifications for women of two monumental developments in this period the intensification of China s encounters with foreign powers and a media transformation comparable in its impact to the current internet age The book offers a distinctive methodology for studying the periodical press which is supported by the development of a bilingual database of early Chinese periodicals Throughout the study essays on China are punctuated by transdisciplinary reflections from scholars working on periodicals outside of the Chinese context encouraging readers to rethink common stereotypes about lived womanhood in modern China and to reconsider the nature of Chinese modernity in a global context **Figurations of the Feminine in the Early French Women's Press, 1758-1848** Siobhán

McIlvanney,2019 In this highly original thought provoking study Siobh n McIlvanney provides critical insight into the origins of the French women s press As the first work in English to examine the diverse range of publications which makes up this significant medium Figurations of the Feminine traces the evolving figurations of womanhood which appear over the first ninety years of women s journals in France It argues that early French women s journals are often characterised by a remarkable degree of feminist content and that this potential political interpellation of their contemporary readership is one which undermines the general conception of the women s press as an idealised hyper femininised space inhabited by the intellectually idle whether in the form of readers or writers seeking at best escapism at worst a benign reinforcement of the values of their quotidien Through its analysis of different generic subsections whether the literary journal the fashion magazine the domestic press or more explicitly politicised outputs Figurations of the Feminine challenges the critical commonplaces which have surrounded the women s press since its genesis both in France and elsewhere It demonstrates the political richness of this medium and the privileged perspectives it gives us on the everyday lives of French women from across the class spectrum during this key historical period Resources in Women's Educational Equity ,1980

*Resources in Women's Educational Equity: Special Issue* ,1979 **Reading and the Victorians** Juliet John,2016-03-03 What did reading mean to the Victorians This question is the key point of departure for Reading and the Victorians an

examination of the era when reading underwent a swifter and more radical transformation than at any other moment in history With book production handed over to the machines and mass education boosting literacy to unprecedented levels the norms of modern reading were being established Essays examine the impact of tallow candles on Victorian reading the reading practices encouraged by Mudie s Select Library and feminist periodicals the relationship between author and reader as reflected in manuscript revisions and corrections the experience of reading women s diaries models of literacy in *Our Mutual Friend* the implications of reading marks in Victorian texts how computer technology has assisted the study of nineteenth century reading practices how Gladstone read his personal library and what contemporary non academic readers might owe to Victorian ideals of reading and community Reading forms a genuine meeting place for historians literary scholars theorists librarians and historians of the book and this diverse collection examines nineteenth century reading in all its personal historical literary and material contexts while also asking fundamental questions about how we read the Victorians reading in the present day

**An Alternative Reading of the Other in The Mahabharata** Seema Sinha, Kumar Sankar Bhattacharya, 2025-03-13 This book studies gender sexuality and representation in *The Mahabharata* Drawing on Feminist theory Queer theory and Deconstructivist theory it revisits the epic as a saga of agency empowerment and subversion and examines how it gives the gendered marginal the women and the queer a voice The authors argue that in a fluid text like *The Mahabharata* there is ample scope for contradiction and conformation as well as conflict and resolution which gives the marginal an opportunity to document resistance They analyse the stories of Draupadi Kunti Renuka Ulupi and Hidimba within an anti patriarchal non normative post modern theoretical framework They also examine liminal figures like Shikhandi Yuvanashwa Sudyumna and Bhangashwan who are uniquely placed in conversation involving queer space marginalization and resistance An important addition to the study of Indian epics this book will be indispensable for scholars and researchers of cultural studies subaltern studies Indian literature English literature gender studies sexuality studies queer studies women s studies exclusion studies and postcolonial studies

*Victorian Women and Wayward Reading* Marisa Palacios Knox, 2020-10-22 In the nineteenth century no assumption about female reading generated more ambivalence than the supposedly feminine facility for identifying with fictional characters The belief that women were more impressionable than men inspired a continuous stream of anxious rhetoric about female quixotes women who would imitate inappropriate characters or apply incongruous frames of reference from literature to their own lives While the overt cultural discourse portrayed female literary identification as passive and delusional Palacios Knox reveals increasing accounts of Victorian women wielding literary identification as a deliberate strategy Wayward women readers challenged dominant assumptions about feminine reading and by extension femininity itself *Victorian Women and Wayward Reading* contextualizes crises about female identification as reactions to decisive changes in the legal political educational and professional status of women over the course of the nineteenth century changes that wayward reading helped women first to imagine and then to enact

*Women Making News* Michelle Elizabeth Tusan, 2005 Starting in the mid nineteenth century female editors and journalists created a new genre of political journal they proclaimed to be both for and by women Specialized periodicals like *Women's Penny Paper* and *Shafts* fostered the proliferation of diverse political agendas aimed at reimagining women's status in society At the same time the institutional infrastructure of the women's press provided women with job opportunities in a nontraditional field Michelle Tusan tells two stories First she examines alternative print based political cultures that women developed during the late nineteenth and early twentieth centuries Second she explores how British female subjects forged a wide range of new political identities through the pages of their press Tusan employs social and cultural historical analysis in the reading of popular printed texts as well as rare and previously unpublished personal correspondence and business records from archives throughout Britain Insightful and filled with fascinating detail *Women Making News* uncovers how the relationship between print culture and gender politics provided a vehicle for women's mobilization in the political culture of modern Britain

**Polyamory and Reading the Book of Ruth** Deborah Kahn-Harris, 2023-11-02 Polyamory and Reading the Book of Ruth is based on a simple premise what if the Book of Ruth isn't a love story in the vein of modern rom coms but a different sort of love story Many people are conditioned to read romance stories as resolving into happily married dyadic couplings most often heterosexual But what if that's not how to read the Book of Ruth This book identifies a polyamorous hermeneutic and explores how it might be helpful in interpreting the Book of Ruth Drawing on developments in both feminist and queer biblical studies Deborah Kahn Harris offers a close textual reading that focuses in on a triadic basis for examining the relationships in the Book of Ruth The book closes with a contemporary targumic reimagining of the Book of Ruth that defines more clearly this polyamorous reading

**Engendering the Woman Question: Men, Women, and Writing in China's Early Periodical Press** Yun Zhang, 2020-08-31 In *Engendering the Woman Question* Zhang Yun adopts a new approach to examining the early Chinese women's periodical press Rather than seeing this new print and publishing genre as a gendered site coded as either feminine or masculine this book approaches it as a mixed gender public space where both men and women were intellectually active and involved in dynamic interactions to determine the contours of their discursive encounters Drawing upon a variety of novel textual modes such as polemical essays historical biography public speech and expository essays this book opens a window onto men's and women's gender specific approaches to a series of prominent topics central to the Chinese woman question in the early twentieth century
