Readings in Contemporary Transportation Donald F. Wood, James C. Johnson, 1980-01-01 *Readings in Contemporary Transportation* Donald F. Wood, James C. Johnson, 1983 Contemporary Transportation Donald F. Wood, James C. Johnson, 1989 Readings in Contemporary Physical Distribution James C. Johnson, 1976 *Modern Transportation* Martin T. Farris, Paul T. McElhiney, 1976 **Selected Readings in Quantitative Urban Analysis** Samuel J. Bernstein, W. Giles Mellon, 2013-10-22

Selected Readings in Quantitative Urban Analysis focuses on the use of quantitative approaches in addressing urban problems. The areas discussed are overall urban models, urban models dealing with the basic economic factors of urban life (workers and jobs, housing and transportation, urban models dealing with the provision of basic services: education, health care, fire, police, water and sanitation), urban models dealing with the provision of the luxuries of urban life (theater, ballet, symphony), urban models dealing with how the decisions to provide these factors are made (policy formulation and the resolution of conflicting priorities). This book is comprised of 11 chapters and begins with an outline of the major areas of urban life analyzed in a quantitative manner. Urban modeling is then introduced and problems and pitfalls in urban model building are considered. The next section looks at the economic base of urban life with emphasis on labor markets and labor force, urban housing markets and housing policy, and policy and policy models in transportation. Subsequent chapters explore essential urban services including public education, community health services, fire protection, sanitation and emergency medical services. The remaining sections discuss the amenities of urban life and urban politics and policy. This monograph should be useful to urban administrators and planners as well as students interested in urban problems.

Readings In Indian Railway Finance K.B. Verma, 1989. There are many books on Indian railways and practically none on its financial management. In this respect, this is perhaps the first book of its kind. It is a compilation of papers by some eminent transport economists and railwaymen who have either been at the helm of affairs or been intimately involved in its running. The book thus has an effective blend of theory as well as fruits of long years of experience.

The Transport of Reading Robert Ashmore, 2020-03-17. For centuries readers of Tao Qian have felt directly addressed by his poetic voice. This theme in the reception of Tao Qian moreover developed alongside an assumption that Tao was fundamentally misunderstood during his own age. This book revisits Tao's approach to his readers by attempting to situate it within the particular poetics of address that characterized the Six Dynasties classicist tradition. How would Tao Qian have anticipated that his readers would understand him? No definitive answer is knowable, but this direction of inquiry suggests closer examination of the cultures of reading and understanding of his period. From this inquiry two interrelated groups of problems emerge as particularly pressing both for Tao Qian and for his contemporaries: first problems relating to understanding authoritative texts centered on the relation between meanings and the outward traces of those meanings (expression); second problems relating to understanding human character centered on the unworldly scholar, the emblematic
