Africans in East Anglia, 1467-1833 Richard Maguire, 2021. What were the lives of Africans in provincial England like during the early modern period? How, where, and when did they arrive in rural counties? How were they perceived by their contemporaries? This book examines the population of Africans in Norfolk and Suffolk from 1467, the date of the first documented reference to an African in the region, to 1833 when Parliament voted to abolish slavery in the British Empire. It uncovers the complexity of these Africans' historical experience, considering the interaction of local custom, class structure, tradition, memory, and the gradual impact of the Atlantic slaving economy. Richard C. Maguire proposes that the initial regional response to arriving Africans during the fifteenth and sixteenth centuries was not defined exclusively by ideas relating to skin colour, but rather by local understandings of religious status, class position, ideas about freedom and bondage, and immediate local circumstances. Arriving Africans were able to join the region's working population through baptism, marriage, parenthood, and work. This manner of response to Africans was challenged as local merchants and gentry began doing business with the slaving economy from the mid-seventeenth century onwards. Although the racialised ideas underpinning Atlantic slavery changed the social circumstances of Africans in the region, the book suggests that they did not completely displace older, more inclusive ideas in working communities.

Guide to the Hispanic American Historical Review, 1956-1975 Wilber A. Chaffee, Beecher C. Ellison, 1980. *Latin American Readings for a Cultural Age* E.

Santi, 2016-10-18. Gathered in one volume are seven of the best essays written in the last fifteen years or so by the eminent Latin Americanist Enrico Mario Sant. The essays cover a wide range of topics in Latin American poetry, narrative, film, and intellectual history, and also explore Spanish Peninsular subject matter: the Spanish Generation of 98's response to Spain's loss of Cuba in the Spanish American War of 1898. The essays are introduced by a long text in which the author develops a bracing critique of some dominant trends in current critical practice and spells out an alternative methodology.

The Leverage of Labor Lolita Gutiérrez Brockington, 1989. This work is an ethnohistorical investigation of the social and economic structure of the vast estates granted to the Cortés family in southern Mexico. Lolita Gutiérrez Brockington deals with landholding patterns, agricultural production, and the social organization and use of native Indian and African slave labor on these estates, thereby shedding a great deal of light on this little-known early colonial period.

Grindle, 2012-06-11. Patronage systems in public service are reviled as undemocratic and corrupt. Yet patronage was the prevailing method of staffing government for centuries, and in some countries it still is. Grindle considers why patronage has been ubiquitous in history and explores the processes through which it is replaced by merit-based civil service systems.
