

## Population Growth

- Immigration, the high birthrate, ample amount of fertile land, and a dependable food supply caused the population within America to escalate drastically.
- The influx of African slaves to the English colonies also caused a sharp increase in immigration.

## European Immigrants

- Migrants from Western and Central Europe such as France and Germany not just England.
- Motives for immigrating included religious tolerance and economic opportunity.

### English

- Settlers from England, but they didn't immigrate quite as much as the Germans and Scotch-Irish due to few domestic problems.

### Germans

- Settled within the rich farmlands west of Philadelphia. They maintained their German language, customs, and religion.

### Scotch-Irish

- British government pressured them into leaving Ireland, and they settled within Pennsylvania, Virginia, the Carolinas, and Georgia.

### Other Europeans

- French Protestants called Huguenots, the Dutch, and the Swedes also settled within America.

## Africans

- Every colony from New Hampshire to Georgia passed laws that discriminated against Africans and limited their rights and opportunities.
- Enslaved Africans made up 20 percent of the colonial population and 90 percent of Africans lived in the southern colonies.

## The Structure of Colonial Society

### General Characteristics

#### Self-Government

- Each colony's government had a representative that was elected by eligible voters.
- Every governor except in Rhode Island and Connecticut was appointed by the king.

#### Religious Toleration

- Each colony had varying degrees of freedom of religion. For example, Massachusetts accepted several types of Protestants but excluded non-Christians and Catholics.

#### No Hereditary Aristocracy

- A nobility that inherited special privileges were missing within the colonies. Instead a narrower class system formed with landowners at the top and workers making up the commoners.
