Readings In Social Geography:

Readings in Social Geography Emrys Jones,1975 Readings in Social Geography, Ed. by Emrys Jones,1975

Readings in Social Geography ,1975 Social Geographies Ruth Panelli,2004-01-31 Providing students with the resources to understand both the theoretical and empirical approaches social geographers take when investigating social difference this text outlines key theoretical approaches and traces the core geographies of difference class gender race ethnicity and sexuality It concludes by showing how geographers work across these ideas of difference to understand questions of identity power and action Publisher **Readings in Urban Analysis** Robert W. Lake,2017-07-05 This important work brings together a range of perspectives in contemporary urban analysis The field of urban analysis is characterized by the multiplicity of approaches philosophies and methodologies employed in the examination of urban structure and urban problems This fragmentation of perspectives is not simply a reflection of the multifaceted and complex nature of the city as subject matter Nor is it a function of the variety of disciplines such as geography planning economics history and sociology Cross cutting all of these issues and allegiances has been the emergence in recent years of a debate on fundamental issues of philosophy ideology and basic assumptions underlying the analysis of urban form and structure The notion of urban analysis Robert W Lake discusses focuses on the spatial structure of the city its causes and its consequences At issue is the city as a spatial fact a built environment with explicit characteristics and spatial dimensions a spatial distribution of population and land uses a nexus of locational decisions an interconnected system of locational advantages and disadvantages amenities and dis amenities Beginning with landmark articles in neo classical and ecological theory the reader covers the latest departures and developments Separate sections cover political approaches to locational conflict institutional influences on urban form and recent Marxist approaches to urban analysis Among the topics included are community strategies in locational conflict the political economy of place the role of government and the courts institutional influences in the housing market and the relationship between urban form and capitalist development This is a valuable introductory text for courses in urban planning urban geography and urban sociology **Reading Human Geography** Trevor J. Barnes,Derek Gregory,1997 Focusing on post positive geography Reading Human Geography makes available in a single volume some of the key texts that have informed its contemporary thought and practice The readings include some of the most important contributions by geographers to conceptual and methodological debates during the last fifteen years Paying special attention to writings by human geographers rather than philosophers and other social scientists makes the collection unusually accessible to undergraduates unfamiliar with other vocabularies and other concerns Editorial introductions to each section draw attention to connections inside and outside the discipline they provide both a context for and a summary of the essays that follow together with a detailed bibliography and suggestions for further reading There is also a glossary and an index *Readings for Social Studies in Elementary Education* John Jarolimek,Huber M. Walsh,1965

Readings for Social Studies in Elementary Education makes it possible for students to sample quickly a wide range of basic literature in elementary social studies the articles in this volume vary considerably in their emphasis and focus Some selections are of the how to do it type some deal with fundamental issues some are on a theoretical level and others report research studies This collection represents the best current thinking in the elementary social studies field Emphasis has been placed on articles published since 1960 although older articles have been included if they have something unique to offer The book is organized in six sections that corresponds to major topics often included in a curriculum and methods course Thus articles dealing with a specified subject for example geography any appear in more than one section **Mapping Worlds**

Rob Kitchin,2013-09-13 Social and cultural geography is practised by geographers from around the world However for various reasons including language and publishing traditions knowledge of the research being undertaken can often remain confined to those working within those countries This book draws together for the first time into one volume reports of social and cultural geography undertaken in several countries from around the world It provides an important overview of geographic ideas and traditions and the history of human geography more generally allowing comparison between countries and details of key studies and references As such the book will be of interest to geographers schooled in different national traditions and those interested in the production and history of geographic knowledge Entries are written in both English and the country's own national language **The Wiley-Blackwell Companion to Human Geography** John A. Agnew,James S.

Duncan,2016-08-08 This volume provides an up to date authoritative synthesis of the discipline of human geography Unparalleled in scope the companion offers an indispensable overview to the field representing both historical and contemporary perspectives Edited and written by the world's leading authorities in the discipline Divided into three major sections Foundations the history of human geography from Ancient Greece to the late nineteenth century The Classics the roots of modern human geography Contemporary Approaches current issues and themes in human geography Each contemporary issue is examined by two contributors offering distinctive perspectives on the same theme *Regional*

Development: Theory and Practice Baleshwar Thakur,H.S. Sharma,Suresh Misra,S. Chattopadhyay,Surendra Singh,2017-01-01 The Five Volume Series on Regional Development Theory and Practice is a festschrift dedicated to Professor R P Misra a distinguished scholar widely recognized as one of the pioneers who initiated and promoted Regional Planning studies in India This five volume series with over one hundred research papers on different aspects of regional development is a fitting tribute to the scholar who spent much of his life time thinking researching and writing about development in general and regional development in particular These five volumes each dealing with a specific aspect of regional development Vol 1 Concept of Regional Development Vol 2 Measuring Development Vol 3 Development Patterns and Structures Vol 4 Development Policies and Vol 5 Development Challenges Each of the five volumes begins with an introduction which is unique in the sense that this is not merely an introduction to the contributions contained in the volume

but also talks of the theory of regional development contemporary development in the discipline and the contrarian views expressed by various academics and policy makers Another significant aspect of these introductions is the global view and a comparative scenario of the developed developing and under developed economies of the world that the editors have kept in view in a debate seeking an universal theory of regional development Regions are specifics and often unique and regional development implies focusing on the assets of the territory its potential and constraints
