Literature in all forms—fiction, nonfiction, and poetry—is used by teachers as a tool for language acquisition and learning. Reading improves students' cognitive growth. It also gives teachers the chance to underline key morals and teachings that kids need to learn as they mature.

- Any written work can be considered literature in general, but literary works are highly creative or intellectual in nature. It is a fine art, like painting, dance, music, etc., that gives readers a sense of enjoyment.
- **Aesthetic quality** – the characteristic that sets literature apart from other written works. When a written work lacks any aesthetic quality, it is not considered pure literature.
- It is a method of storing, documenting, and conveying information and knowledge that has moral, social, cultural, psychological, and even political implications.

The Importance of Literature

- It helps readers gain a better perspective and see the world differently.
- It allows us to understand and empathize with others and helps us build social skills. Even though we might never actually face social situations, it gives us the chance to picture and experience them in our minds.
- important facet of literature: **being able to examine the internal realm of human life**—the characters' feelings and thoughts—in a manner that auditory and visual media, like movies and theater,

Suggested Readings for a Course in Children's Literature Corinne Brown, 1918

Reading Madeleine L'Engle Heidi A. Lawrence, 2023-10-20

Using a critical lens derived from ecopsychology and its praxis, ecotherapy, this book explores the relationships Madeleine L'Engle develops for her characters in a selection of the novels from her three Time Austin family and O'Keefe family series, as those relationships develop along a human/nonhuman kinship continuum. This is accomplished through an examination both of pairs of novels from the fantastic and the realistic series and of single novels which stand out as slightly different from the most prominent genre in a given series. Thus, this examination also shows L'Engle's fluid movement along a fantasy/reality continuum and demonstrates the integration of the three series with each other. Importantly, through examining these relationships and this movement along continuums in these novels, the project demonstrates how ecopsychology and ecotherapy provide strong and important and as yet virtually unexplored intersections with children's literature.
