Rethinking the Gods Peter van Nuffelen, 2011-12-01 Ancient philosophers had always been fascinated by religion From the first century BC onwards the traditionally hostile attitude of Greek and Roman philosophy was abandoned in favour of the view that religion was a source of philosophical knowledge This book studies that change not from the usual perspective of the history of religion but as part of the wider tendency of Post Hellenistic philosophy to open up to external non philosophical sources of knowledge and authority It situates two key themes ancient wisdom and cosmic hierarchy in the context of Post Hellenistic philosophy and traces their reconfigurations in contemporary literature and in the polemic between Jews Christians and pagans Overall Post Hellenistic philosophy displayed a relatively high degree of unity in its ideas on religion which should not be reduced to a preparation for Neoplatonism *Readings in Religious Philosophy.* Geddes MacGregor, J. Wesley Robb Geddes MacGregor, J. Wesley Robb, Lucius Garvin, 1962 God Matters, 2007

The Challenge of Religion Frederick Ferré, Joseph J. Kockelmans, John Edwin Smith, 1982 To use a book like this either for the professor who may have adopted it for a course or for the person who may simply be reading it out of interest is to call for creative imagination There are many different way in which these readings might be approached Our own editorial discussions about groupings and orderings were themselves quite lively *God Matters* Raymond Martin, Christopher Bernard, 2003 *God Matters* is a state of the art accessible anthology of the major issues in philosophy of religion Its accessibility is due to its mix of classic readings and brand new readings about contemporary issues commissioned specifically with an undergraduate student in mind These commissioned readings make the difficult concepts of contemporary philosophy of religion easy to understand and are complemented by key excerpts from more technical philosophers writing on the same subjects The result is an engaging comprehensive reader that introduces students to the most important ideas in classical and contemporary philosophy of religion to the most important thinkers and even to excerpts from the key texts in which these thinkers presented their groundbreaking theories
